WOMAN GREAT HELP IN LIBERTY LOAN WORK

Has Become Integral Part in Sharing Obligation of Financing the War.

By MISS GRACE DIXON, Federal Reserve Director for Women in Seventh District.

One of the great truths we have learned in this war is the need of men and women working together understandingly and sympathetically—animated by the same spirit of helpfulness, of fearlessness, of enthusiasm, facing definitely one goal with equal honor, equal power. For men and women working together with unanimity of purpose make the ideal service for the nation.

To write of the activities of the women's work in the Seventh district is a pleasure, as we have become such an integral part in sharing the obligation of financing the war. That the work of the women and men might be more effectively co-ordinated in the district, the director of the campaign committee as well as of the executive committee of the federal reserve banking committee. The state chairmen, county chairmen and city chairmen have been made members of the executive committees of the men's organization in their respective states, counties and cities.

The definite activities for women shall be: 1. All women's organizations that are listed strictly under women, such as clubs, fraternal societies, lodges, leagues, guilds, etc.

2. All elementary and high schools, private and parochial schools. 3. All booths, such as street, hotel, restaurant and cafeteria, department store and theater booths.

4. Women shall co-operate with the men's committee, in churches, universities, ward organizations and any other committees where they can be of service.

It was also recommended that no separate reports of the amount of subscriptions taken be given by women, but that on account of the volunteer subscription and allotment plans, credit be given equally to both men and women if it is advisable for women county chairmen to have a distinct and complete understanding with the county chairmen of the men's organization of this fact, so that no misunderstanding will arise on this subject during the campaign. Where regular campaigns for soliciting subscriptions are made by both men and women, a separate record must, of course, be kept and reported.

Dr. Anna Shaw's admonition to the women of America "That every woman should be her child to the United States government by a little bond" is the slogan that is the inspiration of our workers. Through our various churches, schools, clubs, we hope to reach every home in this country—for we realize that if we can touch and kindle the patriotic ardor of women and bring women of diversified experiences and standards of living to a realization of their responsibilities, that upon the people who remain at home rests the obligation of financing this war, then indeed are we fulfilling our mission as we should.

THE WILL TO WIN.

The casualty lists are hitting the rural communities as well as the cities and bringing home the war in earnest. Every casualty list should increase the will to win, and strengthen the determination to win regardless of cost. The men are giving their lives on the fighting front, and the folks at home cannot do less than exert every effort to increase the production of food crops and to expend every dollar possible in buying Liberty Bonds.

WE'RE ON THE TEAM; WE'RE IN THE GAME; WE'RE OUT TO WIN

By A. ALONZO STAGG, Famous Athletic Coach University of Chicago.

I said to a friend recently that I had not felt so poor in 34 years, or since I was a freshman at Yale working my way through. "Well, don't you think we ought all of us to feel poor these days?" was the reply. That is just the point. We ought. If we don't feel on the strain most of the time these days I doubt whether we are doing our full duty in helping win the war.

My observation is that we never accomplish much in this life without being dead in earnest, without hard work and without self-sacrifice, and I can't figure out how we can win this war without all of us co-operating most generously along these lines. First of all, unless we feel dead in earnest about our winning the war there is something wrong with us and it were better that a mill stone were hanged about our neck and we were drowned in the depth of the sea.

No one will work hard and make personal sacrifices unless his heart is in the enterprise. The beautiful part of this affair is that we can all be in it—we are all on the big team with a chance to play the game to our limit. At present we must play the particular position which is assigned to us, and play it for all that is in us whether we like our job or not.

The main thing and the loyal and the patriotic thing is that we give to our utmost of time and energy and money. Putting the fourth Liberty Loan across means that each one of us must give that uttermost of time and energy and money.

We're on the team, we're in the game, we're out to win. Now let's get down under it and root and lift and boost until we cross the goal line.

THE FARM AND THE WAR

By L. H. Bailey (On Former President Roosevelt's Rural Life Commission.)

The response of the farming people to the Third Liberty Loan was gratifying. It was what we expected, as soon as the question was put before the farmers directly. I hope that the Fourth Liberty Loan will be taken still more freely by the rural people.

No great war can be won in these days without the active co-operation of all the people. We contribute by giving ourselves, our business, upholding the hands of the government, and loaning the government our money. This money has been accumulated because we have prospered, and because our government has protected us. The investment is the best, and the spirit that takes Liberty Bonds is the same spirit that makes good crops. The farmers' crops have saved us.

We cannot think of losing this war. We cannot run the risk of an agriculture controlled by a headstrong, immoral state, such as would be imposed on us if Prussia were to succeed. Agriculture lies at the foundation of our system of democracy; its opinion must count in our public policies; this means that farmers must take such an active part in the maintenance of the war that they will have a right to be heard. They have taken this part thus far, and I know that they will be steadfast to the end.

THE "TEA PARTY" AND THE KAISER

By LOUIS ALBERT LAMB.

My grandire painted red his hide In present Mohawk style, And crouched down to the Mystic side To wait a little while.

Then other Yanks in redskin guise Collected at the bay And took the tea ship by surprise And threw the tea away.

Old George the Third was much averse To freedom for the Yanks; His taxes were a deadly curse— He taxed and gave no thanks.

But when the Mohawk Boston men Dumped all the tea to port King George began to think again And arm for warlike "sport."

He sent his Hessians over here To kill Cap. Barker's boys, To burn the school and meeting house And other such annoy;

But when they came to Bunker Hill That jolly day in June, And Warren met 'em with a will They piped another tune.

The Yanks have got a job today That's worthy of the race; The Kaiser trends a rocky way And spurs to save his face.

But all the Yanks have gone to France En route for old Berlin; If we buy Bonds at every chance You bet the Yanks will win!

Our grandires dished King George's will And salted all his tea. Our boys will do the same for Bill, Kaiser of Germany!

The only way to push the work And make Berlin our own, Is this: Get busy, do not shirk But BUY THE "FIGHTING LOAN."

FARMERS AT START OF TWO VITAL CAMPAIGNS

Titlers of the Soil Must Prepare for Next Year's Harvest and New "Fighting Loan."

Farmers of the United States, whose work the last twelve months in fortifying the food lines of the allies has been of such supreme importance, are now at the start of two vital campaigns—preparing for the 1919 wheat harvest and for the "Fighting Loan." The wheat harvest of 1919 will be the Liberty Wheat Harvest and the government has asked again for the co-operation and support of the wheat producers to sow 47,500,000 or more acres of winter wheat this fall to guarantee against possible partial crop failure next year. Uncle Sam knows from past performance that the American farmer again will "come across" at the call. The United States grain grower now realizes fully that he is the main line of defense in the allied food army, and he is proud of his position and of his achievements. Without the essential food reserves there will never be a grand smash that will overwhelm the destroyers of the world's peace, but with the American farmer holding the line, the food reserves will be on call, and the grand smash will come as surely as the American nation is in the war.

Confident with the beginning of the campaign for the Liberty Wheat Harvest will be the inauguration of the campaign for the Fourth Liberty Loan—the "Fighting Loan." Both of these campaigns are vitally important. Both will be backed to the limit by the farmer. Both will bear positive witness to the enemy of the solidarity and singleness of purpose of this country; both will heighten the morale of the allied peoples and give a conquering spirit of confidence to the allied armies; and both will enable Uncle Sam to throw the whole weight of his mighty resources against the cracking German line, so that the harvesting of the Liberty Wheat Crop may indeed be a harvest of freedom, the Hun overthrown, justice and right triumphant, and the world at peace.

WHAT LIBERTY BONDS CAN DO

One fifty-dollar Liberty Bond will pay the United States war bill for 1-10 of a second, or buy 1,000 cartridges, or 100 hand grenades, or 104 rifle grenades, or 37 first aid packets and cases, or 19 bayonets and scabbards, or kits for a platoon, or knives, forks and spoons for a company, or four gas masks. It will feed one soldier for four months, or will feed 100 soldiers for a day, or provide life preservers for 10 men or hammocks for 10 sailors, or windproof suits for 30 naval lookouts, or save 1,000 men from smallpox by paying for vaccine, or save 693 men from typhoid fever by paying for their inoculation, or save 130 wounded men from lockjaw by providing antitoxin, or buy 1,000 yards of adhesive tape, or bandage 100 wounds.

A one hundred dollar bond will buy eight Tom, field gun shells, or three rifles and their bayonets, or 5 incendiary airplane bombs, or T. N. T. for the bursting charge of a 14-inch shell. It will clothe a soldier for overseas service, or clothe a sailor, or will feed a company of infantry for a day. For the medical department it will provide: 25 pounds of ether for anesthetics, or 145 hot-water bags, or 2,000 surgical needles.
