

## Wool

**Clothing Must Be Conserved**

The Government has commandeered the Country's entire supply of Wool—must have it for our boys "over there."

This means economy in woollens heretofore unknown.

Here is where the Master Cleaner can perform a real service. Thorough cleansing at proper intervals almost doubles the life and usefulness of any woollen garment.

Call the Reliable Laundry, Master Cleaners. They can keep your new garment new or make your old ones do. Be sure you call a cleaner who displays the Master Cleaner emblem. It is your guarantee of master service—the service that is the need of the hour.

## SONS IN SERVICE

The repeated testimony of the boys at the front still tells us of the hospitality of Highland Park and its people. Through various channels these gratifying reports reach the ears of those who have tried to make the life of the boys in service pleasant while they were in our midst.

The following is an extract from a letter of Ensign George Moseley, U. S. N. R. Aviation:

Somewhere in France Repair Base, which by the way is a huge place, consisting of over a mile of cement buildings and hangars, I got to talking with one of the boys who was guarding the planes. It seems he had entered the Navy at Great Lakes. I told him that I lived in Highland Park, and at that he opened up on me and told me all about the wonderful spirit the people around there showed—how much they had done for the Blue Jackets and how much they appreciated every little favor that had been done for them. He said the wonderful treatment he had received there as a stranger made him realize more than ever what a wonderful country we had, and how much we all ought to sacrifice, if necessary, that that country and these people should be saved.

"In Paris I met an army lieutenant, trained at Ft. Sheridan. When he heard where I came from, he said 'I will hand you one thing—your people in that section of the country are wonderfully hospitable. They made my feeble efforts at Ft. Sheridan when I was beginning my training, a pleasure instead of a hardship.'"

The following is a letter received by Mr. John O'Keefe from George Augustine, Co. B, 4th U. S., A. E. F. August 24th, 1918

Dear Friend Mr. O'Keefe:—  
"I have often thought of writing you but not until now has the thought materialized; we have been on the move continuously ever since our arrival here and in our travels have seen Bordeaux, Calais, Versailles, and seen Paris from a side-door of our Pullman.

The country which is not in the war area is surely beautiful, every available portion being under cultivation, and another thing in particular, the well-kept roads which make it an ideal auto touring country.

We have just returned from the front and are enjoying a few days of real, "honest-to-God" rest. The place is ideal for it also; a beautiful valley with a good spring and nice creek to bathe in and a village about ten minutes walk where we can get light wines, and if finances permit, a few bottles of champagne don't go bad.

Our last session with the Heines was sure a hot one; for three weeks

I didn't have my clothes off, being on the go continuously; until Heine put up an awful stand for a week—high explosive, shrapnel and gas shells were continuously whistling and bursting in all directions.

My bunkie was amongst our casualties; a sniper got him; we had bunked together ever since we landed on this side.

We asked some German Heines what they thought of the "American Boy Scouts" as the Kaiser termed them. They said that they were some of the most fearless men they had come in contact with yet, and they were glad to have been so fortunate as to be taken prisoners as their casualties were enormous.

To see the remains of some villages which were once the homes of a peace-loving people, is certainly an awful sight—not even a small tree remains.

My brother, Bob, is in the same regiment so I see him occasionally; he is a cook now and I have never seen him look better.

Well, Mr. O'Keefe, I will close for this time. I would enjoy hearing from you, and please remember me to the boys of old 1366.

As ever your friend,  
GEO. AUGUSTINE.
