

The FRANKLIN SEDAN

Today's Great Car—Sturdy for Men; Safe for Women; Economical for Both.

Time changes customs. Conditions alter viewpoints. There may have been a time when the average woman purchased an automobile because the design was a new departure, and the interior was to her liking.

Today she looks further. She knows more about cars. She demands, not only a fine-looking car, but a fine-acting car also—one that is sturdy for men; safe for women; economical for both.

The Franklin Car did not win the admiration of women drivers on any single element such as beauty, ease and safety of handling, quick responsiveness in crowded city traffic, or riding comfort; but rather through the combination of all these qualities, which result in its remarkable showing of—

18-20 miles to the gallon of gasoline—instead of 8
10,000 miles to the set of tires—instead of 5,000

No other fine car in the country today can equal the consistent economical performance of the Franklin. Because no other fine car is constructed on Franklin principles which make for economy.

If you haven't seen the Franklin Car with its many new features, and especially the Franklin Wide-Window Sedan, which affords almost unobstructed range of vision, come and see it today.

Not only will you have an opportunity of viewing the only fine car that fully and completely meets the national need of motoring economy, but also of learning the reasons for its mechanical excellence.

Come see it today, or we'll bring it to you at an hour's notice.

RAVINA SCHOOL

At assembly on Friday the members of the eighth grade class will give sketches of the lives of the men taking part in the world's history of today.

The warm weather has saved much consumption of fuel, but there has been a widespread neglect of all public bodies to send telegrams of sympathy to the coal producers.

Mark Down Sale of WINTER SHOES
