By GEORGE ADE.

On October 1, 1918, you, being wise man and having read with care the opinions of military experts, knew 1. That the great war was going to last until far into the summer of 1919.

2. That the casualties among the American soldiers would be increasingly heavy up to the final moment of

3. That, as a result of the growing magnitude of the world struggle, th government of the United States would call upon us for at least three huge bond subscriptions during 1919.

If you believed otherwise you were in the minority, for the cabinets of all the nations united against Germany and the bankers, and the shipbuilders,

You Be Patriotic When th Band's Not Playing?"-George Ade.

and the masters of food supplies thought they knew that Germany would stand out for many months.

Now then, to suppose a case. some one had come to you on October 1, with a proposition to end the war within six weeks by a complete an overwhelming victory on condition that you would subscribe liberally for Victory bonds in the spring of 1919, you

would have replied as follows: Say, end the war this fall and stop the killing and maiming of our boys, and put the kaiser out of business and compel Germany to accept our terms and let the American soldiers begin to head for home, and I'll pledge my last dollar for the loan that is needed to clean up expenses."

That's how you felt on October 1918, and now that all the miracles have come to pass, are you going to be grateful or forgetful?

You are now asked to help finance (by merely lending on favorable terms and not giving) the final and gigantic expenditures which brought victory months ahead of the schedule.

If we had lost the war, what would you be paying this spring and whom? How's your memory? Did you feel certain, just a year ago today, that Germany could be prevented from dictating terms to the whole world? How about a loyal parent who refuses to pay a doctor bill because the child gets well instead of dying?

When you tackle a big job do you stick to the finish, or do you go fishing and permit some more dependable man to come in and put on the roof and chimney?

Do you experience symptoms morality only when the doctor is seated at the bedside?

When you start to go somewhere, do you travel four-fifths of the way and then flop by the wayside?

Can you be patriotic when the band is not playing? We are settling up a big job, so

don't queer your war record at the

eleventh hour by being a quitter. --- HELP "FINISH THE JOB."-

Reserve Board Looks Farmer for a Generous Support of the Coming Victory Liberty Loan.

The United States Congress has ap propriated \$1,000,000,000 to guarantee the American farmer \$2.26 a bushet for his 1919 wheat crop, a price which is \$1 a bushel more than he might reasonably expect if American wheat was thrown on the market to compete with Argentine, Australian and Indian wheat. The American farmer has responded to the government's guarantee by pledging the production of millions of bushels more wheat than he has ever grown before, according to officials of the United States Food Administration's Grain Corporation.

The American farmer has never been in better financial condition, the officials say, The report of the Federal Reserve Board shows that the 1918 farm crop added \$17,000,000,000 to the wealth of the country. The corn crop alone put \$3,528,313,000 in the farm-

er's pocket. Hay added \$1,500,000,000 to the farmer's income. Apples brought him \$230,000,000. Ofts sold on the farm for something over \$1,000,000,000

The guaranteed price of wheat will not only assure the farmer a profit on wheat, but will also sustain the prices on other farm products, Food Administration officials point out. With the return of an abundance of labor, the farmer is assured a highly prosperous

With the surplus the farmer has from his last abundant harvest and with his present season's return in a large measure guaranteed, the Federal Reserve Board looks to the farmer for generous support of the coming Victory Liberty Loan. The securities to be offered will merit his attention as first class investments, aside from their patriotic appeal.

"Sixty thousand American lads many of them farmer boys, gave their lives for the freedom of democ racy," said an official of the United States Food Administration, "Had the war continued throughout next summer, as our military chiefs believed it would, two hundred thousand Americans and many more hundreds of thousands of their compatriots would have been sleeping in Flanders' fields and beneath the sod of France and Lorraine.

"That these lives were spared was due in a large measure to the lavish expenditure of the United States government in assembling men and munitions to crush Germany. Most of the men and even less of the material of war was never used. Yet the mighty preparations of our government forced the Germans to cry 'Kamerad.'

"The American farmer's sons are coming home for the most part unscathed. For this the American farmer is duly grateful. From his abundance from the past year and from his assured prosperity for the coming season, he should and will set a new record, a Thanksgiving record, in his subscription to the Victory Loan."

---HELP "FINISH THE JOB."---LET US STAND BY DEAR OLD UNCLE SAM.

Uncle Sam is asking for a Victory Liberty Loan to clinch the stupendous demonstration that moral force, not military force, is to rule the world. We must care for our army of occupation and bring it home; we must reconstruct and rehabilitate those who have been wounded and blinded in defense of the right. This is to be a Loan of Thanksgiving, and the response should be more hearty and joyous than the response to any of the preceding Loans. Uncle Sam has helped to save the world for Liberty and Civilization. Let us give him the wherewithal to complete the fob.
