Is Your House Wired for Electric Light?

If the reply is in the negative, you will be interested to know that we have assembled material and labor on a basis which enables us to bring the cost of wiring houses including the necessary fixtures to a basis of bedrock, all payable a little each month for 24 months.

The special offer of low costs involved will be effective in April only. As it no doubt will be accepted by numerous owners of the unwired houses in this town, the thing to do is get your order in early.

Full details at our office.

With every house wiring contract amounting to \$50 or more we give an Electric Iron free

PUBLIC LIBRARY

Open week days, 9-12; 1-6; 7-9.
 Do you know there is a library in your town?
 Where is it located?
 What it contains?
 How it may be used?
 What it will do for you?
 "Here is just what I have been looking for," exclaimed a young man eagerly seizing a book, "Blueprints and How to Read Them." He would not have found that book for months, perhaps years, had he not been a frequenter of the Public Library. The amount he has gained by that book is not recorded on the account books of the library, but he is a better citizen because he is now valuable to the community. He got it free. He took with him Lehman's "How to Sing," also. That man is growing in many directions and he is getting a lot out of life. Are you? Wake up! Spring is the time to begin to grow. Come to your Public Library.
 Other books on business and its administrative and allied subjects are:

- 700 lessons in business.
- Installing efficiency methods.
- How to write business letters.
- Productive advertising.
- Commercial raw materials.
- The book of advertising tests.
- How to sell more goods.
- Specialty advertising.
- How to live.
- Words and their use in English Speech.
- Vocational education.
- Money and banking.
- The banker at the boarding house.
- Diet and endurance
- Psychology
- Blasco Ibanez, the famous Spaniard who wrote the remarkable "Four Horsemen of the Apocalypse," has issued another novel, entitled, "The Shadow of the Cathedral, which vividly portrays the faïces which are undermining the church and monarchy of Spain.
- "Slippy McGee" is a novel of dramatic tenderness and charm. The hero is an erstwhile burglar whom chance brings to live under the protection of a young priest. From the opposite ends of the physical and social worlds, with broken lives, with much in common in temperament they stay together in spite of difficulties. It is one of the novels which one considers a "find" for one won-

ders why it was not more widely advertised.

"Carolyn of the Sunny Heart," follows Endicott's novel of last year, "Carolyn of the Corners." Carolyn is the sunny little person who happens into the life of the pale lady and is the pivot upon which swings the solution of her mystery. Get acquainted with the optimistic little person, and you will feel better for knowing her.

Did you, too, love Maeterlinck's "The Blue Bird"? If you did, if you do, you will run right down to the little brick building at the sign of the book, and get the sequel which he quaintly calls "The Betrothal." The Public Library is rejoicing in having it for you to read.

When the war came to the United States, one grandmother in Chicago went to an automobile college to learn to drive a car. She said that before she had always felt safe because she could harness, ride or drive any kind of a horse, but in these days she felt she had to know how to handle a car as well. So she brought herself up to modern efficiency, and learned machines. Everyone may not take time to do as she did, but everyone can read the books and study the charts on automobiles at the Public Library. Make yourself an able member of your community. Some of the new books are: "How to Run an Automobile" by Page and "The Model T Ford Car." The charts are: "Location of Gasoline Engine Troubles Made Easy," "Location of Cooling and Lubrication System Faults Made Easy," and "Lubrication of the Motor Car Chassis."

Said New Orleans to Boston:

Boston! I'm mighty glad to meet you. I owe a lot to you as do we all. I thank you, sir, for your shoes, your sewing machines. And our young ladies know your confections well. Let's pledge our friendship in this Owl Cigar.

And Boston made reply: I've wanted long to know you, New Orleans. Tell me of your city's charm. Your French Market, your famous restaurants, your Mardi-Gras. And how goes the business of your great port?

It's true! One city can always meet another on the common ground of the mellow fragrance of Owl and White Owl cigars. For their dependability has made these two good cigars so popular that they are now sold in almost every town in every state. Try them and see why.
