THE FEED FOR RESULTS

It's what you get for your money that interests you. "Results"—That's what we are all after. If it is more eggs, better chicks, you should feed VITALITY SCRATCH FEED and VITALITY EGG MASH. These feeds were formulated by men with years of experience and are made of the best of crushed, cracked and whole grains, properly balanced and perfectly mixed. They are intended to furnish the hen with the VITALITY necessary to produce more eggs in a healthy, normal manner and to enable the hen to put into those eggs the VITALITY necessary to produce a strong, vigorous, growable chick. Quality and Results are the main things considered in making VITALITY FEED.

The activities directly connected with the closing of school at Elm Place begin tomorrow, Friday, June 13, the occasion being the celebration of Flag Day and the annual school ground picnic. Beginning at nine o'clock exercises having to do with the history of the flag will be given in the auditorium and following this will be the parade of flags and salute to the colors on the lawn. The remainder of the day will be given up to games and athletic contests with due attention to eating lunches, ice-cream cones, etc. "Nickel shows" will be held at scheduled times in the auditorium. The program for these is as follows:
