the stability of this branch of public service will be destroyed. Upward of \$5,000,000,000 is invested in electric railways, in the United States. In purchasing power the industry is rated third in the country. The electric railroads give employment directly to nearly 400,000 employes and indirectly to a probably greater number. With their families these employes number about 2,000,000, so that the crippling of such an industry is a serious menace to the industrial life of the nation.

That the industry is seriously menaced is shown by the fact that the 44,800 miles of electric railway track in the United States, 5,897 miles, or more than 13 per cent, were on May to the new conditions. The Cemetery Beautiful

LANTED amidst nature's own beauty, man has created a beautiful park cemetery. The sunken gardens, the winding paths, and the imposing chapel makes this spot a vision of beauty. It is indeed a fitting final resting place for our beloved ones.

CEMETERY and ANNEX Gross Point Road and Harrison St., 1/2 Mile West of Evanston

We want you to visit this cemetery. You will find it interesting and attractive. You should reserve for yourself a family lot - all lots in Memorial Park are sold with full perpetual care guaranteed. Suitable easy payments - no interest. Don't miss this opportunity,

The Principle of the Percolation Process is easily understood.

A column of hot vaporized water is forced through the coffee grounds taking from them all their best qualitiestheir essence-condensing finally in a beverage fragrant healthful and that leaves the ordinary boiled article at the quarter post.

Electric Coffee Percolators

They perform the operation involved while you look on interestedly.
