WAR ORPHANS OF FRANCE DYING FROM MALNUTRITION

The children of France have not yet emerged from the shadow of war. With peace assured, and a happier future opening before them, it becomes increasingly evident that the child life of France has suffered a shock from which it is difficult to rally; while the birth rate has dropped to 8 to each 1,000 population.

The Fatherless Children of France, an American organization co-operating with a similar one in Paris of which Marshal Joffre is the head, reports that of the children receiving American aid to the extent of 10 cents a day under its plan of securing American god-mothers for the little French war orphans, its records show an average of 700 children's deaths per month since the armistice. The help of the American godmothers came too late to save these undernourished little ones.

Mrs. Walter S. Brewster of Chicago, vice-chairman of the Fatherless Children of France, has been appointed chairman of a campaign to secure American aid for the 60,000 little war orphans whose names were on the lists of the organization as "unadopted" before the signing of the armistice. Ten cents will care for a child for an entire day; \$3.00 for a month; while for \$35.50 a year the donor may select a child from the lists of the organization's headquarters and be placed in correspondence with it. To adopt a child or make a donation write for information to Mrs. Walter S. Brewster, Room 634, 410 S. Michigan Avenue, Chicago.

"Rubber, of Course"
Ask any electrical man to name the best all-around insulation. Ten to one he'll say rubber.
It is the right answer, too, particularly where storage batteries are concerned. That's one of the things that three years' use of Willard Threaded Rubber Insulation has proved.
Come in. Let us tell you more about Threaded Rubber. Ask, while here, for a copy of the booklet, "The Wick of the Willard."
