

A Way to Do the Family Washing in 15 Minutes

WOULDN'T you esteem it a blessing if you could have the toil and muss of the family washing all over within ten or fifteen minutes?

A dream? Not at all—for it can be done. Here is the recipe.

First ten minutes—Gather up the family washing and make a list of it.

Next four minutes—Wrap securely into a bundle.

Last minute—Telephone our Laundry.

Total time expenditure—Fifteen minutes.

Time saved—Ten to fifteen hours.

When our driver calls, he also gathers up the untidiness and drudgery of washday—and leaves for you, leisure for more womanly activities.

Meanwhile your washing is at our laundry being cleaned with thoroughness and a consummate care that no laundress can excel.

There is no boiling or rubbing to fray fabrics and wear out clothes. We achieve cleanliness by gentle sousing and rinsing in clear, soft water and pure white suds.

Your clothes are daintily finished, too, and returned to you sweet and spotless.

Reduce your washday to fifteen minutes by sending your family washing to us. A telephone call will bring our driver.

Justification for prices
Some dealers who are criticized on the charge of profiteering justify their prices on the ground that they "can get it." Apparently they feel it is fair for them to ask any price the public is willing to pay.

As a correspondent wrote in an exchange, the man who owned a good fire engine could get almost any price for the use of his machine if it was needed at a fire. But that would not prove that a high charge was fair.

The real justification for a price is what it cost to produce and distribute an article, including a moderate return to the producer and distributor.

A great many of the prices now being charged go far beyond this standard of comparison. They include a speculative profit. The people are getting tired of enriching the speculators.
