

Clean Clothes for the Children

Isn't it a delight to send the children romping off to school in crimped frocks and bright, clean things that tell the world of an attentive mother? Of course it is. But what labor it requires!

We can relieve you of much of this work with our laundry service. Step to the phone and give us your address. Our driver will call for your family bundle—flat work, wearing apparel, everything.

All are cleansed in velvety soft water by our modern methods. The stains in the children's wear that were so difficult to remove are carefully washed out. Not by a rub-a-dub means, but by clothes-saving, sousing and rinsing in pure soft water and billowy suds.

Everything beautifully washed and nicely ironed and folded. And sterilized, too. Clean clothes that will safeguard your children's health. Ours is a modern laundry service. Let us do your family washing in our thorough, sanitary and careful way.

IN MEMORIAM

Bensin, Edwin
In sad and loving remembrance of our dear boy who passed away one year ago, September 19, 1918.
If we had seen you at the last, dear Edwin,
To hold your dying hand,
And heard the last sigh from your heart
We would not feel so bad.
Long years will dry the bursting tears,
And calm and soothe the pain,
But love will keep the memory green
Till we meet again.
Mother, Father, Sister and Brother.

UNITED EVANGELICAL

Both the Baraca and Philathea S. S. classes held their regular monthly meetings on Tuesday evening, the former at the parsonage and the latter at the home of Mrs. P. C. Noerenberg, entertained by Mrs. Flora Jarchow. There is a friendly rivalry between the classes in the way of recruiting for new members with the Philatheas considerably in the lead.

Preparations are making for a big Rally Day on the first Sunday in October. There will be a strenuous effort in all departments to rally out the entire membership and if possible bring in some new material. The evening service will include a welcome reception to the soldier boys of the church and congregation who have all been discharged by this time.

The new bulletins are proving a drawing feature for the attendance at the different services. Strangers come once and then become regulars. This church ministers to all classes—the poor and rich alike, and has a message for the saint and the sinner.

The following are the coming Sunday services: 9:30 a. m., Bible School; morning sermon at 10:45; Junior service at 2:30 in charge of Miss Frances Fritsch; Keystone League service at 7:00 p. m. led by Mildred Maechtle. Evening song and sermon at 7:45. A cordial welcome to all, especially the soldier and sailor boys.

The senators should be very careful not to ratify the peace treaty until their constituents have all had copies of their speeches.

Senators reported getting mad about the peace treaty and pounding their desks. They should first carefully examine to see if the desks are properly padded with blotting paper.

Among the people who are howling about the cost of living are those who are angry if the butcher is 10 minutes late in sending out his automobile a mile and a half to deliver 35 cents worth of hamburger steak.

Gen. Pershing finds he has a great many more relatives and intimate friends than when he left this country two years ago.

SOME FACTS ABOUT TIRE INFLATION

It is customary among automobilists when they pump air into a wheel which is jacked up, not to pump up to the required pressure, but to allow a few pounds for the weight which will come on the tire when the jack is removed.

This is bad practice says an expert from the United States Tire Company's laboratories, for careful experiments show that the weight of the car on the tire does not add even a fraction of a pound to the air pressure inside a tire. Consequently, the United States Tire Company advises motorists to inflate their tires to the recommended pressure, whether the wheel is jacked up or not.

While on the subject of inflation, motorists should again be warned that the notion which has gained wide belief among automobilists, that the heat of a summer day expands the air inside a tire to such an extent that the tires do not need to be blown up to the same point as in winter, is an utter fallacy. Experiments show that it takes terrific driving for a considerable period in such a race as that at the Indianapolis to generate enough heat to raise the air pressure in a tire five or six pounds. The expansion in a car driven at an ordinary rate on a hot summer day is so slight that no allowance should be made for it when the tire is pumped up.

Motorists would do well in hot weather to test the air pressure in their tires every few days to see that the leakage of air has not reduced the pressure to the point where the tire will suffer harm.

HOMEWARD BOUND

Homeward bound, Oh, homeward bound
Out on the deep, blue sea,
Oh what are the thoughts burnt into my brain
As I think of home on the sea.

America, OH, AMERICA!
What a home you seem to me now
As I pace the decks at midnight
And watch for you over the prow.

The moon, the bright silvery moon
Casts a highway of light on the sea
And our ship is speeding onward
To the land that is all to me.

Sea, Oh angry Sea,
Would you check us when we're homeward bound?
Or will you let us pass in quiet
And not spring at us like a hound?

Waters, Oh tumbling waters,
I will blame you if we get there not soon,
And I will complain to the God of the storm
That you will be punished right soon.

Now MOTHER, DEAR MOTHER,
Let your heart have courage and cheer,
Till your soldier boys come marching home
And the prides of your heart reappear.

FOR BLESSED ARE YOU ABOVE ALL ON EARTH AND THY SON IS HOMEWARD BOUND.

Among those who believe that a fool can ask questions which a wise man can't answer are the fellows who are taking college exams this fall.

Beer was never advertised so heavily, now that there isn't any—of the real article.

Girl Reserves
We're here—we're there
We're everywhere
Girl Reserves!

The rally call for the Girl Reserves will be sounded next week. The first of the regular fall meetings will be held on the following days: Tuesday at 4 p. m., 2nd and 4th corps, composed of 7th and 8th grade girls, and 1st and 2nd year high school girls.

Wednesday at 3:30 p. m., 3rd and 4th corps, of girls in grades 3 to 7.

Friday, 4 p. m., Bluebird corps of high school girls.

The girls will plan their fall club meetings, deciding what honors they will work for, and what they will aim to accomplish during the next few months.

Every Girl Reserve should plan to attend her club meeting and to bring friends of her own age who would like to become members.

Club Meetings Next Week

The club meetings will begin regularly next week. Members of the following clubs are urged to be at their respective meetings as very important plans will be discussed:

Tuesday at 8 p. m., Dix Amies.
Thursday, 8 p. m., Friendship club.
Friday, 8 p. m., Aster club.
A membership supper and rally will be held early in October, and each club will have a part in making it a success. Every girl is needed to carry out the plans of each club.

Dancing and Gymnasium Classes
The dancing classes which are always very popular among the girls of Highland Park, will begin during the first part of October. There will be four classes, three in the afternoon and one in the evening.

Many of the older girls feel the need of a weekly gymnasium class, and we are hoping to be able to have an evening class in which gymnasium, folk dancing, and social dancing will be taught.

Important Meeting Tuesday
The Junior Service club will hold a most interesting meeting on Tuesday evening, Sept. 23. "Child Labor" will be discussed by Mrs. F. D. Everett. A few moments will be devoted to committees will be made, and plans for the next month's work formulated. The remainder of the evening will be spent in dancing and games, and refreshments will be served.

The people who holler the loudest about the cost of living are often the same ones who increase that cost for everyone else by going on strikes.

But some people's theory of how to reduce the cost of living is to tie up the production of the necessities of life.

Gen. Pershing's admirers are overwhelming him with chances to run for office and add strength to their political tickets.
