

"The Bank of Personal Service"

Is Your Home Fully Insured?

ARE you carrying sufficient insurance on your home and on your household goods?

Do not lose sight of the fact that an amount of insurance which would have been considered adequate a few years ago is now too small for safety. This is due to the fact that the cost of replacement of either household goods or buildings is much higher.

We invite you to come in and talk over the matter of your insurance requirements with one of our officers.

A VOTE FOR THE WOODLANDS

On Tuesday, November 4th, at the regular fall election, the citizens of Highland Park will cast their ballot either for or against the forest preserve question. Those who happen to be lovers of the great century-old trees of the woods, have all had the galling experience of watching some one hew them down with an ax. It is a common occurrence. Cord wood has risen in price since so many people are using open fire places, and the forests are suffering accordingly.

At the same time, more and more people every year are coming in motors from the hot city to seek the shade and quiet of the woods in Lake County, or to eat their lunch beside one of Lake County's fifty or more beautiful lakes. Moreover, the people of Lake County itself are learning to enjoy its beautiful natural features, and they do not want to stand helplessly by and see the woodlands hewed down at the sole caprice of the man who happens to own the timber. Surely something ought to be done to stop this headlong course of the woodman's ax. And now is the time to do it. All those whose souls have revolted time and time again at this vandalism of our natural scenery can go a long way toward stopping at least a portion of it by registering their vote November 4th in favor of the Forest Preserve.

ROOSEVELT WEEK

This is Roosevelt Week. Next Monday is Theodore Roosevelt's birthday. This is the week in which a drive is being made for funds to carry out the plans of the Roosevelt Memorial Association, whose intention is to purchase the homestead at Oyster Bay, and make it the possession of the government and the people of the United States for all time to come. This would indeed be a fitting memorial for the great American whose life was lived in our time, whose marvelous gifts were bestowed upon our generation, whose hardest battles were fought in our behalf.

Roosevelt is dead, but his immortality is in its infancy, and it will go marching on, like that of Lincoln, as long as the flag waves and the "government at Washington still lives." He was an American for all time. He loved the American people for all time, but he lived and walked familiarly with us in the dust of our own generation. It is our great privilege as his contemporaries to contribute our money to his memorial. Let us hope that our share in this great enterprise will be worthy of the battles which he fought, the triumphs which he won, the last bitter sacrifices which he made; for we are the American people.

CHICAGO LEFT OUT AGAIN

It looks very much as if Chicagoans would not be permitted to entertain King Albert and Queen Elizabeth on their extended tour through this country. Chicago is indeed conspicuous for its absence from the royal itinerary as mapped out at Washington. It is said that no reasons have been given for leaving Chicago out, but we know of no reasons why Chicagoans should not make their own deductions on the matter. Chicago has been left out before when no attempt was made to conceal the reason why. The American Legion made their protest before all the world.
