HIGH SCHOOL NOTES

(Theodore Schreiber)

In the first quarter of the Deerfield-Oak Park football game last Saturday afternoon, the local team made the first score tacked up by any team opposing Oak Park this season. To make matters even worse, they held the strong visiting team scoreless until the last eight minutes of play. No doubt more than one of Oak Park's loyal fans developed either gray hairs or heart failure during the interval. The breaks were all against the local team, Deerfield succeeding to get the ball regularly on downs, but losing it almost as regularly on intercepted forward passes, which led to both of Oak Park's touchdowns. Deerfield's score was the result of a perfect drop-kick by Parcels. Final score, 14-3.

The Camera Club, which is enjoying its first year of high school life, held a meeting last Friday for the purpose of electing officers. Alice Knox was crowned president by a unanimous vote, Ted Barr was elected vice-president and Elizabeth Boynton, secretary and treasurer. Miss Morgan, teacher of mathematics, was named general supervisor. The Club now has about 25 members, but later on, when the students see what an active part it plays in the life of the school, it is expected that the numbers will be doubled. The idea of organizing such a club is to collect a suitable number of good snap-shots of school life in general for use in the Annual.

The Annual sale has started with a rush. Every pupil in school is expected to buy one, and a great many have been sold thus far. Out of the almost five hundred students in the high school last year, there was but one who failed to buy the Annual. This year the Senior class hope to do even better. (They can still raise 'em one, and they are determined to do so.) Families which are not represented in high school by a son or daughter should also be interested in this sale, besides getting your copy of the Annual thru some high school student. It has been arranged that Gells and Schumachers drug stores, Krafts in Lake Forest and Merriots in Lake Bluff will take orders for them. No family in the community should miss the big high school hit of the year—only a dollar and a quarter.

A New York man left an estate containing \$25,000 worth of whiskey. No difficulty is so far reported in securing executors for his will.

ARE YOU A MUSIC LOVER?

If you like the compositions of Bach, Greig, Liszt, Beethoven, Thomas Handel, Verdi or perhaps Offenbach, you should make a bird garden. There is lots of good music in a bird garden; it makes a fellow get up before sunlight to watch and listen to the birds—incidentally seeing Old Sol rising above the lake. I am trying to naturalize birds, especially song birds, in Melody Woods, but I also like to do these things for my clients.

You always catch two birds with one stone when planting a bird garden since the way to attract birds necessitates the planting of a lot of berry shrubs and trees which are things of beauty in themselves. Place Indian Stones or a common saucer under your faucets, have a bird fountain, provide shelter and feed the birds and you cannot help but attract them and do not forget to instruct that dear boy of yours not to shoot at every bird that comes along, or like some foreigners do, snare them.

By writing to Box 314 right now I will explain more in detail how to make your back yard an Aviary.

Yours truly,
O. C. DOERRIER.

A brainy man can't necessarily expect to succeed in the Senate, but there is a big chance for a long distance throat than can make a 96 hour speech.

After the coal miners raise the cost of living for the railroad workers by going on strike then the railroad workers will proceed to raise the cost of living for the coal miners by going out. Meanwhile where does the public get off?

Anyway the whole country will gladly give financial assistance to the "Reds" by providing them with free steamship tickets to the most distant points on earth.

An Old Clothes league has been formed. If they buy their old clothes of home town dealers who advertise and back up their goods, they can no doubt wear them a long time.

The aviators talk much about "tail spins." Many of the after dinner orators need one back into their chairs.

It is claimed the sugar shortage will be over in a few days. The files of all the newspapers back in July contain just the same statement.

Some Facts About

Perennial Gardens

Almost anybody can make some sort of a garden. In order to make a good garden we must plan one on paper. The worst possible way to begin a garden is to plant in a haphazard way, after an orgie among the catalogues.

The section of the home grounds where perennials are to be grown needs to be drawn to scale and planned even more carefully than other parts of the place, for there colors, the most and perplexing of problems, becomes the principal factor of success. The planting list should indicate not only the color of the flowers, but their season of bloom, the height of the plant and its preferences for soil and situation. It is far easier for the gardener

and less expensive for the owner, to move plants that should clash in color, or be wrong as to height, on paper, than to plant them after they are rooted in the earth. Since now is the acknowledged best time to plant a perennial garden successfully, I will on request draw such a garden, either formal or perhaps an informal border, subject to owner's approval, at nominal cost. I use only Fritz Bahr's famous Perennials in all my plantings.

Melody Woods still contains hundreds of native Crabs, Hawthorns, and Elms, etc., and it is still time to plant. Prices very reasonable on application.

Yours for more and good gardening,
