VOU will save time and money and will have quick service if you see

your furrier in your home town. At the beginning, you have your furs taken out of storage they may look fine to you, but when you have to wear them every day then you see that the coat has no stylish lines. The collar is not the way they are worn this year. Or you see the fur starts to break and needs a thorough overhauling. Even the lining you thought would wear another winter starts to fray the second time you wear it. Besides the weather man predicts zero for tomorrow. Then you will say I wish I had had that fur coat fixed up in time. Do not delay any longer! Any fur

work you have, we do. Moldaner & Humer

Estimates furnished for Road Construction, Drainage, Sewage and the Construction of Swimming Pools, Bridges, Pergolas, Golf Courses, Water Systems etc. Also the correct and inexpensive building of Terraces and Retaining Walls.

HIGH SCHOOL NOT

The sophomores are trying hard to prove that they are the most prac tical class in high school. giving a Thanksgiving dance this at ternoon (Wednesday) for morrow, and at the safe time a lit tle odd coin for the Annual fund which is growing rapidly-both nual fund and appetite. The class ha figured the whole affair out systematically, and have decided that punch will be the most practical potion to serve on a Thanksgiving eve. Thus the jolly tickle-toers can devour all they wish for an admittance price of ten cents by ticket, or fifteen cents the door. The sophomores also look at the situation from this stand-Thursday and Friday are both school holidays; so are Saturday and Sunday. It stands to reason that a fellow can't step thru ten or twelve dances without getting his understanding mussed up, and don't Therefore the practical sophs have decided that by holding the dance on Wednesday the following four days can be used with good advantage getting shoes back into normal condi-

The Seniors have a grouch on Three weeks ago the Senior rings were to be here. Now it's three weeks later and they are not here yet. Visitors of the school are cordially urged to keep away from the Senior boys locker room 'cause there is an awful lot of awful language flying low. Very likely the same nationality is flying about in the Senior girls' locker room. Bamborough, business manager of the class, is lying awake nights trying to invent some sort of talking machine to tell each member of the Senior class three times a day that "the rigs have not arrived yet."

Listen: Have you ever sat by the fireside evenings, wondering what to do with yourself, and wishing silently that you had a good joke book in front of you? If you have, buy an Annual. In it will be the best variety of jokes ever-jokes that will make "Puck" look like "The Ladies' Home Journal." Have you ever sat by the fireside evenings wishing for a book of good snappy stories in front you? If you have, buy an Annua It will contain the best collection of good snappy short stories one could ask for, and all written by local tal ent. Did you ever wonder what restaurant you ought to trade at or what market, or what shoe store or wha soda fountain? If so, buy an Annu The concern which gives it the best advertisement will be the one which will give the best service. And all you art lovers-some of the masterpieces you will witness in the Nineteen Twenty Annual will make the Art Institute officials look on with envious eyes. Don't you believe it? Buy one and see.

D. A. R. NEWS

returns from the rummage sale were are urged to attend. given, and it was found that the mem bers could send four scholarships \$100 each to the Berry school Georgia, and also to continue the maintenance of the Armenian boy and French girl which was very gratifying to those who so kindly assisted with the rummage sale.

THE WATER GARDEN AND IT ACCESSORIES

As I have said somewhere before landscape gardening is an interesting occupation that keeps a fellow young and in good health. France, now about 25 years ago, I

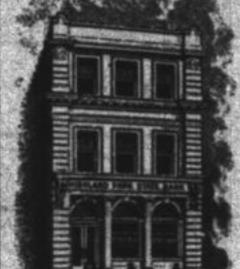

taught me different. When a man house at 2:30. Mr. McIntosh will tell has been in a profession for over 30 of his work in Alaska, ties and beauties of his calling. Right now I am making several Water Gardens here in Highland Park and Ra- at eight o'clock. Everyone who is invinia, and I would like to design and plant more of them. Are you ready to have me give you a figure on the work. Do you like the fragrance of the Lotus (Nelumbium), of the Nymphea alba, or the half hardy Skyblue aterlily. If so, get busy with that on such a garden. Call up 85 and will meet you anywhere along the north shore and do your work correctly and quickly. As to artistic ability I desire to let my work speak for

Yours for good garden planning, O. C. DOERRIER
