

Washday and Your Own Good Health

Have you ever considered how washday is related to your own good health? Physicians generally concede that there is much need for being especially cautious on washday during the fall and winter months.

The hot water and cold, the dampness, the steaming, and the exposure of washday are all of them done away with when you send us your family washing.

We help you protect your health—and we do your washing with the same thoroughness and consideration you would give to it yourself. Moreover, we sterilize as well as cleanse the things that come to us.

Try our Family Laundry Service these fall and winter days. Telephone and we will instruct our driver to call for your family bundle.

Have You Traveled in Italy?

If you have not done so, you should go over now. I believe you will find some of the beautiful gardens left, not destroyed during the war. You would get an idea of the beautiful surroundings it is possible to have right here on your own grounds.

You say the climate is different. That is true; but we have a great variety of trees, shrubs, evergreens, roses and other flowers which grow very well here. Even with the limited variety we have in this country you can make your home not only beautiful, but wonderful, in Italian styles.

I am prepared to draw plans for your garden and grounds after the Italian style, and will be glad to talk over such plans with the owners of North Shore property. I handle the work either on a time basis or by contract. No job is too small to have my attention; still I am prepared to handle contracts running into thousands of dollars.

Won't you think it over? If you would like to beautify your grounds, call up Highland Park 523 now, and I will prepare a plan during the Winter. The work can then be done early next Spring. Bear in mind that a job of this kind well done never needs to be done again. You save money by having it done right.
