### CENSUS TAKERS START WORK IN JANUARY

#### OF UNUSUAL IMPORTANCE

The Law Requires that True and  
Accurate Answers be Given  
Every Enquiry Made  
by Enumerators

The Government is now preparing to take what is known as the Fourteenth Decennial Census, and for that purpose, test examinations have been held for enumerators to conduct the work of obtaining the information this Census requires.

The entire United States has been divided into districts, each of which has a supervisor to organize and carry forward this work. The Second District of Illinois comprises all the cities, towns, villages and farms in Cook county outside of the City of Chicago, and the whole of Lake county up to the Wisconsin line. The district has been divided into 285 enumerators' districts, and the work will begin January 2, 1920, and, it is expected, to be completed within two to four weeks. This will be the most comprehensive and important census that the Government has yet undertaken. Everything alive on December 31, 1919, as well as every farm, animal and product, is to be named and recorded in the enumerator's schedule. Every home, every farm and every charitable, benevolent or fraternal institution in the district will be called upon for this information down to the smallest detail. The names, ages, occupations, nativity, color, language spoken of each inhabitant must be obtained as well as the mother tongue of the father and mother, of the householder and his wife. In like manner, everything connected with, or pertaining to, the farm is called for in the agricultural schedules.

The enumerators charged with obtaining this information, are men and women who have qualified for this work, and received their authority from the Secretary of Commerce and the Director of the Bureau of Census at Washington. They should be met with ready answers to the questions they are required to ask, because it is the law of the land that true and accurate replies should be given every inquiry, failing which, or making any false statement, incurs a heavy penalty according to the act of Congress for the 14th Decennial Census passed and approved March 3rd, 1919.

None should hesitate in giving this information for fear facts required should reach neighbors or taxing bodies, as the enumerators are under oath to make returns only to the proper officials of the Census Bureau and to none other. The enumerators are instructed to be polite and courteous, patient and civil, and in so doing are entitled to the respect and consideration of all called upon in the discharge of their duties.

The work of an enumerator at the best will be hard and exacting and it is to be hoped every citizen in the district will cheerfully and readily aid in this stupendous and important Governmental undertaking.

Respectfully,  
CHARLES STOFFEL,  
Supervisor,  
2nd Dist. of Ill.
