WANTED, FOR RENT, FOR SALE

FOR SALE

FOR SALE—Hillcrest Farm, Stock and Grains is the best producing farm in the Red River Valley, North Dakota, and consists of 1,600 acres of deep, rich, black soil with clay subsoil, in a high state of cultivation.

Soil, climate, rainfall, and the natural drainage of the land makes this farm the best location in the world for potatoes, corn, alfalfa, red and sweet clover, cattle, hogs, sheep, and the great wheat crops for which the Red River Valley is so famous.

The buildings on Hillcrest farm are modern in every respect and the ten room house has all of the latest conveniences. They include a concrete barn with a capacity of fifty head of horses as well as a number of scientifically designed box stalls; 3 cement silos with a total capacity of 500 tons; a model cattle shed that provides ample protection for 200 head; a granary, an icehouse, and all of the other necessary outbuildings.

This place is only ten miles from Fargo, where the state agricultural college is located, and six miles from a \$3,000,000 stockyards and packing plant which offers a very convenient market for the cattle raised on this farm.

If you are interested in the purchase of Hillcrest Farm, in whole or part, write or telephone The Highland Park Press.

The only things that are going down this winter are the bowling alley pins, and those only when you hit 'em just right.

JESS WILLARD AIMS AT COME-BACK

The horde of backers of former champion Jess Willard may have the opportunity of again showing their faith. Tex Rickard says he has word from Willard, who is now in the mountains undergoing a strenuous training which indicates that Jess is thinking "right" and that he is going to try and redeem himself for his miserable Toledo showing.

The dealers who are holding sugar for higher prices, are likely to find the government in possession of their stores and holding them for higher standards of citizenship.

PAINTING
Let me paint a garden for you. Not with ordinary colors, but with pigments everlasting. I use trees, shrubs, perennials and flowers on my palette and I have been told that my paintings are harmonious. There is an endless combination of color schemes to be had in good planting and by using the new French and English hybrids in perennials and shrubs, one may make a beautiful canvas. Let your garden indicate your character. Let your garden show your taste. Let your garden also make you happy! There is contentment in a fine fragrant garden. I make them every day. Call up 85 or write to Box 314, Melody Woods and let me splash your colors.

Adv. For more good gardening,
O. C. DOERRIER
