SKY ONLY, LIMIT FOR NEWSPAPERMEN HERE IS ONE WHO BECAME A BISHOP

Rt. Rev. Charles Sumner Burch, for Thirteen Years an Editor, Now One of Joint Commission Directing Nation-Wide Campaign.

Out of the noise and tension of editorial rooms, ne papermen have gone to positions strangely contrasted

Here is one who left the editorial desk to achieve a bishop's robes.

For 13 years he was Charles Sumner Burch, news-paper editor of Kansas City and Detroit. Today he is the Right Rev. Charles Sumner Burch, Episcopal Bishop of New York.

Formerly his words went from the typewriter to the composing room and so to the columns of the dailies, to help mould public opinion. Now they go out to the members of the Episcopal Church in the Diocese of New York, and beyond, helping to inspire the Church to meet the responsibilities which the day of reconstruction has laid upon it. For when the supreme body of the Church, the trien-

niel general convention, met recently in Detroit-the city where the Bishop of New York once turned out "copy" for the press—it appointed him to the Joint Commission which, with the authority of the entire Church behind it, is directing the \$42,000,000 Episcopal Nation-Wide Campaign by which the Church plans to expand its work in every field and play its full part in

building a new order out of the present chaos.

Bishop Burch saw—perhaps with the old "news sense"

the importance of the Nation-Wide Campaign from "Providence," said he, in his first pastoral address to the Diocese of New York, following his elevation to the

bishopric, "has furnished us, at the beginning of our new mutual relationship, with a task worthy of our highest powers.

The Nation-Wide Campaign is intended to reach and touch the life and purpose of every man, woman and child connected directly or remotely with the Church's existence. If the Church of Christ is to hold fast to and conserve the great spiritual values won through the heroic sacrifices willingly offered by our brave men and boys in the world's most tragic war, it must awaken in each man a keen sense of his individual responsibility for conserving these values."

The Main Point

the close of the story she looked up hearing of anything that is to the disand asked: "Well, did he get the credit of other people.

Stars and Stripes on the Sea. Our flag rules one-fifth of the world's shipping now, and 46 per cent of the others is under our own flag. Trade routes where our flag has not been seen on merchant ships for half a century are now traversed by the boats of Uncle Sam.

The Maliciously Inclined. Eve had formed the bad habit of | Malicious people are of two typesrunning away, so to impress her fully the actively malicious and the passivewith the danger of so doing, her fa- ly malicious. Between the two there ther took her on his knee and told her is a difference not of kind but merely the story of Charile Ross-how he of degree. The actively malicious are was coaxed away from his yard one people who delight in belittling and day by a man who promised him some injuring others, whether by petty goscandy and he never came back to his sip or outright slander. The passiveparents. She listened intently, and at ly malicious find a strange pleasure in

Submarine Coal Mines. There are many submarine coal de- thirty seconds. posits of the British Isles, but so far they are not much worked. The tunshipping between our own ports and nels of the mines at Whitehaven extend some four miles from shore under the Irish seat however, and there also is some submarine coal mining Bolness near the Firth of Forth and at Money carmenth in Durham.

Temperature of Leaves.

Some recent investigation of the temperature of leaves made deserts and mountains of Arizona and in the Santa Lucia mountains of California have resulted in the discov ery that leaves show a very rapid change of temperature at times. These fluctuations are almost constantly go ing on. Changes of from 1 to 3 grees centigrade were observed in from twenty to sixty seconds, and if moderately strong wind is blowing th change may amount to 5 degrees in

Monkeys Hard to Train. Performing monkeys seldom live more than a few months. Many of them die of fright while being trained and it is consequently necessary for trainers to keep a large number of animal understudies.
