Kept Ignominy in Memory. On the 5th of November, in 1500,

Christopher Columbus, in spite of the incalculable services he had rendered to Spain, was taken into Cadiz. in fetters. King Ferdinand and Queen Isabella were moved at the sight and commanded that he be released. Cohumbus, however, was unable to forgive the insult, and until the time of his death the ignominious fetters were reminder of the ingratitude of his sov-

Clover Barometers.

The ordinary clover and all its varittles, including shamrock, are barome-When rain is coming the leaves together like the shells of an For a day or two before rain les their stems swell to an appreciextent, and stiffen so that the eaves are borne more uprightly than This stem swelling when rain is expected is a feature of many flowergrasses.

Peculiar African Reptile.

the gaboon viper ranges over the whole of tropical Africa. The body exceedingly thick, stubtailed, with huge, spade-shaped head. Instead progressing in ordinary fashion reptile throws forward lateral ops of the body and moves along an oblique direction to that in nich the head is pointing. A capspecimen displayed the trait of riking backwards.

Ancients Had Much Wisdom. A great civilization flourished in the valley of the Nile some three thou-

sand years B. C. These Egyptians worshiped the dung beetle, the scarabeus, possibly recognizing its scavenging powers. The well of Joseph, near the great pyramid, is excavated through nearly three hundred feet of solid rock. The ancient Hebrews were the founders of real public health, hung in full sight on his walls as a The laws of Moses, who was born about 1600 B. C., the first hygenic code known, apply about as well today as when first promulgated.

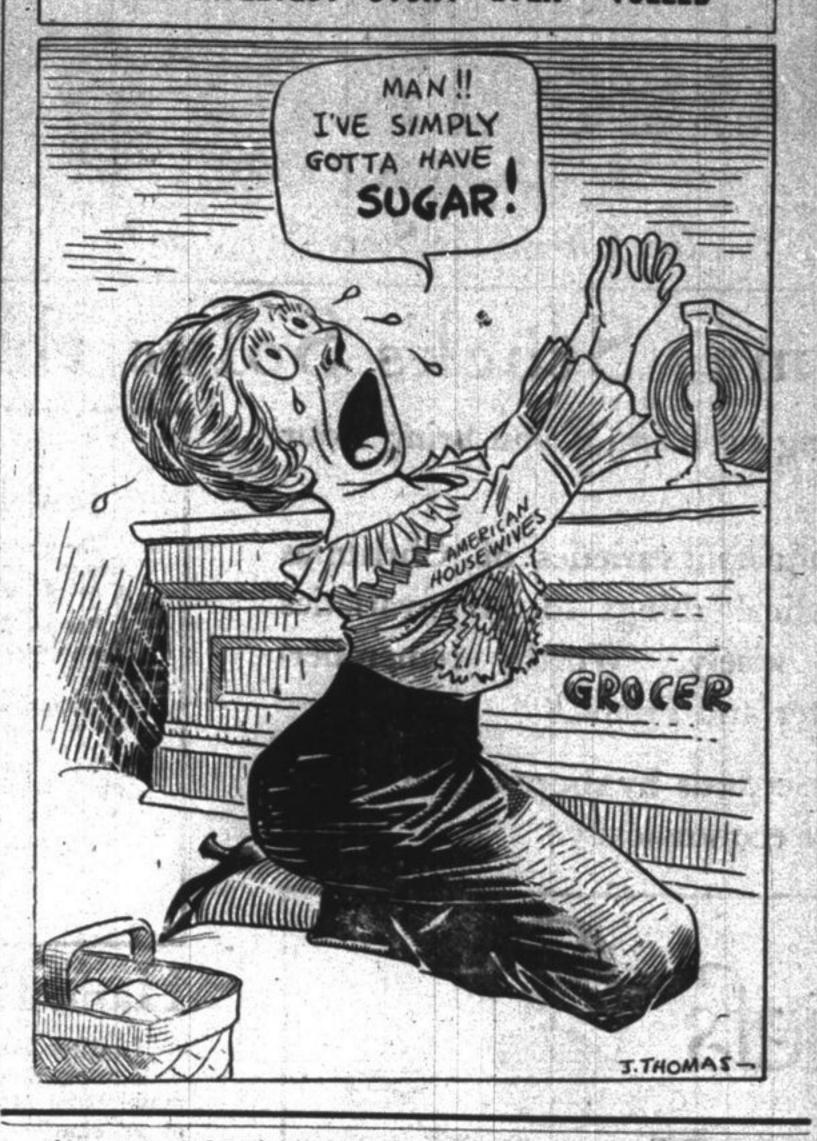

The Girl in Business.

The big difference between young men and women in business is that the former know they have many years of work ahead, while the latter often feel that their sojourn in the business world is to be temporary, Only to the extent that a girl considers her work as a lifetime affair, and accordingly devotes her whole heart and soul to it, can she succeed in rising above the rank and file.-Forbes Magazine.

Would Be a Joke,

John had been the only child in the family for five years, when one day a little baby sister came. Several weeks later the parents were talking about the little baby, saying how sweet she was and how glad they were to have a little girl, John, l'stening, said: "Oh, twenty-two years, A lion which died mother, wouldn't it be a good joke on in the Tower of London in 1760 had you if sister turned out to be a boy?" lived it captivity over 70 years.

#### ELECTRICAL INVESTMENT RUNS HIGH INTO BILLIONS

RAPIDLY BECOMING GREATEST INDUSTRY.

The growth of electrical investment The skin of a rabbit's stomach tied is amazing. It is now in the billions. Edison says that in five years there will be forty billions in electricity. Other authorities put it much higher. "If it is not nearer two hundred billion in five years, I shall be astonished," says a man who has given attention to the industry. "Every nation is investing in electricity. Every part of the earth is coming

under its influence. "The raffroads are making their plans to electrify. Already large citles have demanded electrification the rails entering their limits.

"The electric trolley is destined to go into every nation. Electrically driven machinery is rapidly taking the place of other machinery. The use of electricity in advertising is increasing by leaps and bounds. Electricity in cooking, heating, lighting is increasing amazingly. The city which thoroughly and scientifically lights its streets by electricity is not only the and most attractive, but the

"In the development of electricity for manufacturing purposes the indushas made really astonishing progress. The use of the electric motor is almost universal. In abatement of the smoke nuisance electricity is playing a very important part.

"An army of people will be employed in electricity, from electrician to electrical engineer."

SKILLED DRAFTSMEN

wonderful field is open to the man trained in drafting. Afterthe war activities have developed a vast demand for those who can draft. especially if he is gifted with a little originality. Draftsmen command good salaries and the profession is very attractive as an opening to higher positions. It takes about one year to learn drafting.

THE FIELD OF THE

ELECTRICAL ENGINEER Perhaps no field offers quite such

attractions as does that of the electrical engineer. He was comparatively unknown a few years ago. Today he stands at the top of the world's greatest profession. Immense enterprises are his to manage and develope. To become an electrical engineer

requires three to four years of training twelve months in the year, with a high-school education passing of en trance examination.
