Have You Traveled in Italy?

If you have not done so, you should go over now. I believe you will find some of the beautiful gardens left, not destroyed during the war. You would get an idea of the beautiful surroundings it is possible to have right here on your own grounds.

You say the climate is different. That is true; but we have a great variety of trees, shrubs, evergreens, roses and other flowers which grow very well here. Even with the limited variety we have in this country you can make your home not only beautiful, but wonderful, in Italian styles.

I am prepared to draw plans for your garden and grounds after the Italian style, and will be glad to talk over such plans with the owners of North Shore property. I handle the work either on a time basis or by contract. No job is too small to have my attention; still I am prepared to handle contracts running into thousands of dollars.

Won't you think it over? If you would like to beautify your grounds, call up Highland Park 523 now, and I will prepare a plan during the Winter. The work can then be done early next Spring. Bear in mind that a job of this kind well done never needs to be done again. You save money by having it done right.

Grammar School Notes

By Nellie Graves
Mrs. Woodman and Mrs. Reichelt visited school on Monday.

All the grades held Christmas parties in their rooms Friday afternoon.

Mrs. Redheffer is to continue the work begun in weighing and measuring the children. The P. T. A. are to purchase a scale. On Friday afternoon at two o'clock Mrs. Redheffer held her first clinic class. We feel very fortunate in being able to secure her services and the mothers and friends of the Deerfield school should show their appreciation by attending these meetings.

The former Red Cross room has been fitted up as a reading room for the grades. To Mrs. Kehler we are indebted for the loan of six tables, and a number of mothers have sent us magazines. We were enabled by the money raised at our school bazaar to subscribe for five monthly magazines.

The North Shore Chapter Daughters of the American Revolution presented the school with a copy of Murillo's famous painting, "The Immaculate Conception." The Art Literature Reader tells us that Murillo painted the original day after day for three years and when completed it was used to decorate a cloister in a convent at Seville.

We are grateful to the D. A. R. and the picture has been hung in the reading room so that all the children may appreciate it.

Watch Your Elbow

SINCE Doctor Bell invented the first telephone there have been seventy-four types of Bell telephones designed to combine strength, simplicity and utility.

The desk telephone has more than a hundred parts and is built as delicately as a watch. The smoothness with which it works depends in no small degree upon those who use it. Rough usage is sure to impair its effectiveness.

Care should be taken to prevent the telephone at your elbow from being knocked to the floor and its delicate adjustments damaged.
