Buy Your Ford Car Now

To make sure of getting a Ford car, buy one now. Don't wait until spring but buy now while deliveries are possible. Even next month is an uncertainty.

The number of Ford cars allotted to this territory is limited and specified. Even to get our allotment, we must have real, bona-fide orders for cars. Just so many cars allotted to us; just so many will get cars; will you be one of them? Those who order their cars now will be protecting themselves. If you would be forehanded, get your name on an order today.

Don't think you cannot use it if you get it now. The four seasons are all alike to the Ford car. It is a necessity every month of the year. Besides, the Ford car is lowest in upkeep cost and easiest in operation. And the new Ford electric starting and lighting system makes driving more convenient. Your order for either open or enclosed cars will have our prompt attention.

The January meeting of the Parent-Teacher association was held in the Grammar school assembly hall on Friday afternoon with an unusually large attendance. Mrs. Beecham, the president was unable to be present, and the vice president, Mrs. Gaddis, presided. The association voted to have a sink put in the lunch room for the sum of about thirty dollars and to purchase a scale for not more

than twenty five dollars for the weighing and measuring of the school children. The primary room gave a short program, after which Mrs. Frank Bruce Davidson of Chicago gave an interesting talk on thrift in making baby clothes and exhibited a great variety of them. Her patterns are entirely original and has had to have them patented and sell them. By following directions and cutting according to the patterns, a great deal of time and money can be saved.

Delicious refreshments were served by Mrs. J. A. Stryker and Mrs. Ed. Landau.

FLOUR BEING OFFERED AT LOWER PRICES

Flour is being offered by the United States Grain Corporation at low prices, compared with what the mills are asking and the retailers are getting. Good soft winter wheat flours are to be had from dealers and department stores in Chicago and vicinity at \$1.55 in 24 1-2 lb sacks. This package has been found the most popular seller among retailers and the flour is being put up largely in sacks of this weight to popularize it with consumers. The Grain Corporation, which is backed by the United States Government, is endeavoring to reduce the cost of flour to consumers by this method. Flour is being taken freely, and within a week more than 15,000 barrels have been sold. It is \$1 to \$3 and in some instances \$4 a barrel lower than flour equally as good is selling for by retailers in various sections. In handling this flour care should be taken as it requires less water than the spring wheat flours and makes equally as good bread and far better pastry.
