## The Jordan Silhouette Sedan

**THIS** smart closed car is happily designed for the owner who drives. Intimately comfortable for five persons—snug, one might say, but without the slightest suggestion of crowding. The wide windows give all the vision of an open car.

The day of the top-heavy closed car is definitely past. The Jordan Silhouette Brougham has an all-aluminum body. It is light and conspicuous for its absence of rattle. The car is easily handled, with an abundance of fluent power.

The interior is most inviting, with upholstery of finest imported weaves in shades to match the body colors.

In lines the body is grace itself. The shape of the doors, the spacing of the windows, the curve of fender and the height of hood all contribute to an effect that is fashionably modern.

A new Jordan Motor Car with all that this implies.

**A LITTLE ADVICE**  
 For an early delivery place your order before Chicago Show January 24th-31st

## Koon's Garage and Show Room

125 North St. Johns Avenue and Opposite Postoffice  
 Phone 388 for Appointment. HIGHLAND PARK, ILLINOIS

**ILLINOIS WOMEN ARE FOR FAIR PRICES**  
 If old Hi Cost of Living knows what is good for him, he will take to the woods without loss of time, for the women of Illinois are on his trail.  
 Mrs. Joseph T. Bowen, recently appointed state chairman of the Woman's Department of the Fair Price Commission of Illinois, has issued a call to the 2,500 women who served as chairmen of local branches of the Women's Committee, State Council of Defense, during the war, asking them to accept appointment as chairmen of the local branches of the Fair Price Commission, and to call the women of their communities together in a concerted plan to combat the high cost of living.  
 Central bureaus of information are to be opened in every community where a list of fair prices for Illinois, issued weekly by the Fair Price Commissioner of Illinois, Major A. A. Sprague, may be obtained, and where complaints may be filed against dealers charging prices not in accordance with these lists. Complaint cards for this purpose will be furnished by this central bureau, and all complaints investigated by a Buyers' Vigilance committee. Complaints found to be justified will be referred to the District Chairman and prosecution begun by the U. S. District Attorney.  
 For information on any phase of the women's campaign, address Mrs. Joseph T. Bowen, chairman Women's Dept., Fair Price Commission of Illinois, Federal Bldg., Chicago.

**FORD EMPLOYEES ATTEND FORD TRADE SCHOOL**  
**Four Story Building Used for Americanization and Vocational Training. Four Courses Offered**  
 The enrollment of the Ford Motor company's Americanization and Vocational school in Detroit has passed the 3000 mark. There are four courses available to Ford men: The English course, trade school, service course and toolmakers' school. A four story 30' room building is occupied almost entirely by the educational activities of the Ford Motor company, which teaches English to its foreign-born employees, which teaches its service men the proper method of repairing the Ford car, that makes toolmakers out of the workmen who show their desire to advance and takes boys under sixteen whose parents can no longer send them to school and gives them a combination of general schooling and toolmaking or other trade for which the boy shows a liking. This latter part of the school is known as the Henry Ford Trade school and is regularly incorporated under the Michigan laws as a private school.  
 On entering this school the boys are granted an annual scholarship of four hundred dollars which is paid them in bi-monthly installments and helps to support them while learning a trade. Provision is also made for increasing this scholarship as the boys progress and attain higher marks in class room work and shop practice.  
 Besides the four general courses are a number of special courses, for foremen, for men whose work requires their having a knowledge of metals and a teachers' training school. All of the teachers in the Ford school are Ford men—men who, because of some special fitting or because of their ability coupled with an understanding of the "Help the Other Fellow" spirit, have been called to the work of teaching other Ford men. In all there are seventy-five teachers in the Ford school which is more than the ordinary high school employs.  
 It must not be inferred that those men who are learning trades do all of their learning in the school. They do not. Periodically so many times a week they attend the classes to learn the theory but the experience they gain in actual work in the factory. Practice and theory proceed together and all of the time the students, be they men or boys, are working on actual parts for Ford machinery or the Ford car and they are being paid the regular wage.

Adjoining the school yard is the Ford athletic field where there are 16 tennis courts, baseball fields, a skating pond, football grounds, together with considerable gymnasium apparatus.  
 The Ford system of Americanization has many times received the commendations of prominent educators for its practicability and effective results.

**CHILD LABOR DAY TO BE OBSERVED**  
**Herbert Hoover Urges Widespread Observance of Day Set Aside For Important Problem**  
 Declaring that "there is absolutely nothing in our national life of more importance than the child labor problem," Herbert Hoover in a statement made public through the National Child Labor committee, urges a widespread observance of Child Labor Day. The day is to be observed in synagogues on Saturday, January 24, in churches on Sunday, and in schools, clubs and civic societies on Monday.  
 "Such progress as we can claim over and above the rest of the world," says Mr. Hoover, "is due to our care of children, but such care is even yet woefully behind."  
 Franklin K. Lane, Secretary of the Interior; Newton D. Baker, Secretary of War; P. P. Claxton, Commissioner of Education, and Miss Julia C. Lathrop, Chief of the Federal Children's Bureau, are among those urging a general observance of Child Labor Day. Secretary Lane makes the following statement through the National Child Labor committee:  
 "Child labor will soon be a thing unknown. The child will be given its chance to grow. But work by children on things that are not drudgery and do not impair health or spirits will more and more come to be recognized as education. We know only what we do, is at least more than half true. And the child that trains hand and eye and brain to work together is being educated. Experience has shown that a fixed limit must be set by law, else the exploiters will take advantage of the necessities of the parents. Now, that we are coming to a minimum wage, the necessity will grow less. I can not say, "Let no child work" for I believe in the idea of work being put into the hands of the young, and I believe in the value of work to the young—but not monotonous, not anything that does not tend to make a more complete citizen in the long run."

**WEEKLY REPORT OF BOWLING TOURENY**

The Highland Park Press took two games from Steffen's Tires. Garnetts took two from Harder's Hardware. Reliable Laundry took three straight from Bowman Dairy. Majestics took three from Tony's Barbers. Rasmussen's Shoes took two from Palace Cash.

Scores follow for the week of Jan. 12 to 16:
