**NEW TRIER-DEERFIELD
GAME HELD TUESDAY**

Deerfield Lightweights Defeat New Trier 23-12. Heavyweights Drop Game to Old Rivals

The Deerfield lightweights defeated the New Trier lightweights on the New Trier floor Tuesday afternoon by a score of 23-12. The teams were evenly matched and at the end of the fourth quarter the score was 12-12. An extra period of five minutes was added and in that period the lightweights hit their stride and ran up 11 points. The New Trier game was the first real test for the team and the showing indicates they will make an excellent showing in the remaining suburban league games.

The heavyweights dropped a game to New Trier by a score of 27-15. During the first half they were unable to locate the basket and the half ended 11-2. In the second half they started dropping baskets but were unable to catch up with their opponents. Deerfield played a good defensive game, but was unable to stop New Trier's long shots. New Trier made the majority of her baskets from the center of the floor.

**HIGHWOOD ROBBERS
SERVING SENTENCE**

Youths Who Broke Into Winter Jewelry Store Last Month Are Now Held at Chicago

Local authorities have received a communication from Chicago informing them that Delbert Castle, Victor Castle and Joe Gentile, Chicago boys, who are wanted here on a robbery charge, are at present serving a six months sentence in the house of correction for carrying concealed weapons. Immediately upon their release they will be turned over to the Highwood authorities.

Have Confessed
These youths on the afternoon of December 19, smashed the glass in the front of the R. C. Winter jewelry store, and escaped with about \$150 worth of goods. They were seen and reported to the police, who arrived just in time to see the trio escape on an electric car. Later they were taken by Chicago police on the charge of carrying concealed weapons. They confessed to the Highwood robbery.

**SMITH GRADUATES SEEK
\$4,000,000 ENDOWMENT**
(Continued from Page 1)

good authority, that the salaries of the teaching body of Smith have not been raised for many years, which means, of course, that the salaries of the professors, always small enough in every college, have not been increased during these recent years of the high cost of living.

It is little wonder then that the graduates of Smith are recruiting for the great campaign, and a notable army these women make when mobilized. In Evanston, they have rented an old barn opposite the University, and there the Smith grads serve tea, waffles, and hot cakes from ten o'clock in the morning until six at night. They have painted the interior of the barn a joyous yellow, and hung the old windows with lavender and white curtains. But their picturesque ideas did not stop with the decorations, not a bit of it. After they had completed their furnishing and established their felicitous color scheme, they had to have a name, and that name is "The Barn Swallow." Motorists who would like a cup of tea or chocolate will find these Smith women every day doing faithful duty to their Alma Mater at The Barn Swallow, on Sheridan road between Hinman and Chicago avenues.

Highland Park women are just mobilizing for the attack. Mrs. Edward Smith is chairman for this district, and she is assisted by Mrs. Roger Vall and Mrs. Everett Millard. Just what the nature of their campaign will be here is not definitely decided, but they will be heard from later. Those who are interested in Smith College for personal reasons cannot fail to see the essential justice in a campaign whose purpose is to do a small part in increasing the salaries of men and women who constitute the greatest mental and spiritual agency of this nation.

"A Place to Bank"

WHEN the newcomer to Highland Park asked the Real Estate Agent to recommend to him "A PLACE TO BANK" this was the answer:

"I bank at the Highland Park State Bank. They have been here twenty years, serving and boosting the community. They have resources of over one million and own their Bank Building. They are real bankers, who have always treated me fine and they will treat you the same."

We appreciate this recommendation. The new account came and has been made welcome.

the reward of your past, the hope of your future

YOUR loving eye perceives and rejoices in every shade of growth in their bodies and their minds. The first step—the first word—are milestones in your life which will become lavender-centered memories to be recalled in years to come by a glimpse of baby shoes you laid away.

You experiment and select and discard and try again, seeking the foods that best help your children grow in body and mind. Your first thought is for your own—and rightly so. You must protect the quality of the food your children eat.

There will be other memories too. Sickness and pain told you by sobbing baby voices, surprised and frightened that life holds suffering for children. And, too often, memories of those unsung, hard, bitter fights for fluttering little lives that only mothers can fight.

You must be sure that when your children are hungry you will always have ready the food they need. You must protect the existence of the source of food supply on which you depend to supply their needs every day.

It will be all worth the doing. In all the world there is no joy such as comes with the growth and the blooming of the young lives that are yours.

The man whose business it is to see that you can always procure food when you want it is as necessary to your children's welfare and your own as the food itself.

From the day they first come under your roof until the day they leave it for roofs of their own, the food of your children is first in your mind—for food means life.

You need your grocer. He needs you. He is meeting your need. See that you meet his. The more you let him serve you, the better the service he can give.
