

Where Will Highland Park Stand?

In order that its customers and employes might enjoy the advantages of owning stock in this big, growing company, the Public Service Company of Northern Illinois decided, at a recent meeting of its board of directors, to place on sale a block of its 6% Cumulative Preferred Stock, on a savings plan basis, giving it the advantage of having you as a stockholder in the Company.

Telephone Us Today and Our Representative Will Call on You Immediately

A FEW weeks ago this unusual offer was first announced. Today you here it discussed on every hand. Folks are realizing the opportunity that is open to them. They are talking about it. They are taking advantage of it. \$5 down and \$5 a month for stock in such a large and well established company as the Public Service Company of Northern Illinois is a money-saving and money-making opportunity that is seldom equalled. Folks are asking one another, "Have you bought?" Where at first it was a matter of personal gain, it has now become a matter of civic pride as well. Folks are wondering how Highland Park stands among the 200 cities and towns served by the Public Service Company of Northern Illinois. They are asking: "Has Highland Park proved its progressive spirit? Will Highland Park go 'over the top' with the largest percentage of customer-stock-holders of all the cities and towns served by the Company?" Highland Park surely should go "over the top." But it is up to each individual

customer of the company. It is up to YOU! Surely—if you have not already done so—you are going to take advantage of this remarkable opportunity. You will scarcely miss the small sum of \$5 a month. Yet think what it will mean to you in the end! You will be financially interested in your own local public utility. You will own stock in a company which has been doing business for years—a company whose services are absolutely essential to the welfare and growth of two hundred thriving cities and towns. Your money will be as safe as a bank, and it will earn 6 per cent for you! The company has paid dividends on this stock regularly since its organization. You will receive dividends of \$6 per year on every share you buy. Because the allotment of stock to be sold on this plan will soon be gone, we advise you to act now. Phone us or call at our local office today or at your bank for full particulars. Increase your own income—and at the same time help put Highland Park "over the top!"

Sincerely yours,

(Signed) John S. Reesman, Division Superintendent

Severe Storm Tomorrow

This does not worry the housekeeper with a gas-heated clothes dryer in the basement.

The successful drying of clothes in an artificial manner depends, to a large extent, upon the quickness that the moisture and odors emanating from the clothes while being dried can be removed. This in conjunction with the amount of heat secured in the drying cabinet, determines the rapidity with which clothes or garments can be dried as well as making them as sweet and as pure as if they had been dried by the bright sunshine.
