Selling Service

A TELEPHONE company sells service. It does not sell or rent telephones.

The instrument in your home or office is of use to you only by reason of the service rendered. The bill you pay is distinctly a service charge.

And telephone service is different from other services.

If your neighbor's gas supply is defective, his lighting poor, or his water supply inadequate, you are not affected. These annoyances concern only himself and his household. But if his telephone is out of order, and you cannot reach him when you call, or if he makes you wait long before he answers, your telephone service is unsatisfactory.

Thus the service of any telephone user may be rendered unsatisfactory by the habit or act of another.

In the interest of good telephone service we suggest the observance of the following simple practices:

Respond promptly when the bell rings.

Make sure before calling that you have the right number by consulting the telephone directory first.

Speak distinctly, with the lips close to but not touching the mouthpiece.

When answering give your name or the name of your firm—cutting out "Hello."

This Bank is Back of the Home

TRULY and eloquently has it been said "The American home is the safeguard of American liberties." Likewise it may be said that true Americanism will prevail over Bolshevism and Radicalism if we continue to build, promote and conserve that American Home.

Beautiful Highland Park is, and always will be, a city of homes. Hundreds of these homes have been bought and built through the help and instrumentality of this bank during its record of 20 years.

Owning your own comfortable home in this charming suburb is a great privilege. If you contemplate building or improving a home during the coming season, this bank is prepared to help you finance it.
