

THERE is no article of household utility that must stand the hard use that falls to the lot of rugs and carpets. They accumulate the soil incident to all hangings and draperies; they are the victims of the law of gravity; they fall heir to the grit that clings to footwear, large or dainty, to the feet of grown-ups or romping youngsters. To add insult to injury, they must be the treadmill of the household, where this accumulated grit and soil grinds the life and wear out of the threads and fibres. You have such rugs or carpets in your home. Thorough cleansing, such as we give them—at proper intervals—adds new life and greatly prolongs their usefulness. May we not have the opportunity of demonstrating to you the excellent quality of our Rug and Carpet cleaning

What About Your Washings?

Are you going to keep on being fretted and bothered with them, or will you let us put your clothes in our snowy suds and return them to you pure, clean and white, all flat pieces nicely ironed, the balance ready to iron? If you knew how many other women were employing us you would begin with us now.

Have You Traveled in Italy?

If you have not done so, you should go over now. I believe you will find some of the beautiful gardens left, not destroyed during the war. You would get an idea of the beautiful surroundings it is possible to have right here on your own grounds.

You say the climate is different. That is true; but we have a great variety of trees, shrubs, evergreens, roses and other flowers which grow very well here. Even with the limited variety we have in this country you can make your home not only beautiful, but wonderful, in Italian styles.

I am prepared to draw plans for your garden and grounds after the Italian style, and will be glad to talk over such plans with the owners of North Shore property. I handle the work either on a time basis or by contract. No job is too small to have my attention; still I am prepared to handle contracts running into thousands of dollars.

Won't you think it over? If you would like to beautify your grounds, call up Highland Park 523 now, and I will prepare a plan during the Winter. The work can then be done early next Spring. Bear in mind that a job of this kind well done never needs to be done again. You save money by having it done right.
