ADVERTISING

Advertising pays.

In the words of the great and celebrated Greek philosopher Erystipelas "Faith, Hope and Advertising. These three, but the greatest of these is Advertising."

Advertising covers a multitude of skins.

But at the same time it is a magnificent power for good.

When we are little boys we carve our initials in the old maple tree. That is advertising.

We write our names in hymn books. That is advertising.

When we die, we have some fine obituary poetry and a splendid epitaph is engraved upon our tombstone. Advertising.

The man who invented the tombstone epitaph was the first great exponent of fake advertising.

When a walking stick is lost by a young man with a solid ivory head, he does not find it again unless he advertises.

When a piano is for sale by an old gentleman with beautifully carved legs, he must put the public next to the fact or he keeps the piano.—Exchange.

Knowing how makes difficult problems seem easy.

A real big man never acts towards others as though he thought they had no right to live.

The world isn't looking for great men half so hard as it is for men who'll do a good day's work uncomplainingly.

It doesn't take a woman long to discover that the man who was always on time as a lover is apt to be a trifle late for supper as a husband.

Look not a gift-horse in the mouth.

Against God's wrath no castle is thunder proof.

Nothing is more easily blotted out than a good turn.

Alas, how difficult is the guardianship of glory.—Syrus.

A man gains nothing by vainglory but contempt and hatred.

Who hath glass windows must take heed how he throws stones.

He who has a glass roof should not throw stones at his neighbors.

Who stands god-father to a wolf should have a dog under his cloak.

Get on the crupper of a good stout hypothesis and you may ride round the world.—Sterne.

WEDDING SUPERSTITIONS

It is good luck to the couple if a pigeon alight on the church as a couple enters it to be married.

If the official clergyman has trouble to find his glasses it is a sign that one of the two before him will not bear inspection.

It is a sign of bad luck and separation if a woman signs her maiden name instead of her new married name on the church register.

APPROPRIATE BOATS

For dogs—Barque.

For kissers—Smack.

For surgeons—Cutter.

For barbers—Clipper.

For jokers—Jolly-boat.

For tramps—Bumboat.

For poor people—Dingy.

For gentle people—Tender.

For happy people—Transport.

For pen and ink artists—Liner.

For grave-diggers—Dugout—Cartoons Magazine.

COMMON BELIEFS

If you sing before breakfast you will cry before supper.

To comb your hair after dark is a sign of disappointment.

If a young woman loses her garter it presages that she has an inconstant lover.

The removal of a ring from the finger after it has been long worn is unlucky.

BUTCHERS' BALL AT WILMETTE WEDNESDAY

Evanston local No. 241, Almagamated Meat Cutters and Butchers Workers of North America, which includes Lake Forest, Highland Park, Highwood and other north shore towns, will give their first annual ball Wednesday evening, March 17, at Jones hall in Wilmette. The grand entree will occur at eight o'clock, and a very enjoyable evening is promised. This is the first affair of the sort given by the north shore meat cutters.

PIONEER DIES AT HOME IN WAUKEGAN

Richard Cole, One of County's Oldest Residents, Passed Away Last Sunday Morning

Richard Cole, one of the oldest residents in Lake county, died very suddenly last Sunday morning at his home in Waukegan.

Mr. Cole was 81 years of age, and his entire life had been spent in Lake county. He was born in Lake Forest, and when a young man moved to Benton township. He served with distinction as a member of the county board. In later years he moved to Waukegan and became highway commissioner, being in charge of a number of important pieces of work.

Forty-five years ago he was very ill, and his physician advised him to go to California for a year, but the doctor also said that he could not live more than a year longer. He lived nearly half a century and more.

Mr. Cole was a brother-in-law of the late David M. Erskine of Highland Park. Funeral services were held Wednesday at his home in Waukegan, the Rev. Phelps of the Methodist church officiating.

That fact that a man can't lug grocery bundles home for his wife, does not prove that he can't carry certain other kinds of packages.

Someone asks the Press what has become of all the bartenders? Well, a lot of 'em are operating the pumping plants that keep the soft drink river flowing down the dusty throats of the high school crowd.

The present theory of economics is to pay brains less than muscle. The savages of Central Africa have gone on that basis for 5000 years, and have not gotten very far.

It is a very difficult thing for children to sit through a church service lasting an hour and a quarter, but they do not experience this difficulty at a two hours and a half picture show.

The prevailing theory of what to do about the starving millions of Europe is to let 'em starve and then the problem will be solved.

The mechanics think they can run the railroads a good deal better than the railroad men, the railroad men think they can run the farms a good deal better than the farmers, and the farmers think they can run the shops a good deal better than the mechanics.

Why We Merchandise "Exide" Batteries in Preference to Any Other Make.

We have been, at various times, offered the merchandising privileges of every other well known make of storage batteries—some of which carried larger discounts; some attractive advertising propositions, some lower priced, etc.

We have always, and do now, consider it a very rare privilege to merchandise "EXIDE" batteries and represent "EXIDE" service in this community.

Our knowledge of batteries dates back over a period of years, during which time we have been able to distinguish for ourselves the one battery that stands out as the one to render service commensurate with its cost.

"EXIDE" Batteries are backed by a company whose cornerstone of human relationship is honor—their product is made and sold on its honor. That being true, (and we know it to be), we can stand behind them on our honor as a local business concern.

As a local business concern, conducting a battery business with local folks, (many whom we call by their first name), could we afford to offer anything that we could not back up on our honor?

We think not. That's why we merchandise "EXIDE" Batteries in preference to any other make.

W. E. BECKER

Becker Battery Service Station

15 N. St. Johns Avenue Telephone 31 Highland Park

It is a significant fact, that, once an "EXIDE" user always an "EXIDE" user.

Our service car is at your command, and your call for help will receive prompt attention day or night.

New Qualities in a Motor Car

THE new series Marmon is the embodiment of the great lessons learned by the Nordyke & Marmon Company in building aircraft engines for the government.

The motor has new features of design, and it is built to an extraordinary degree of accuracy. It is, as a result, a High Efficiency Motor. It produces results that are new to motoring experience.

There is new rapidity of pick-up. New ease in hill-climbing. New power ranges. And withal, there is a smoothness of operation, and an immunity to trouble and wear that means the exceptional in economy of maintenance and long life.

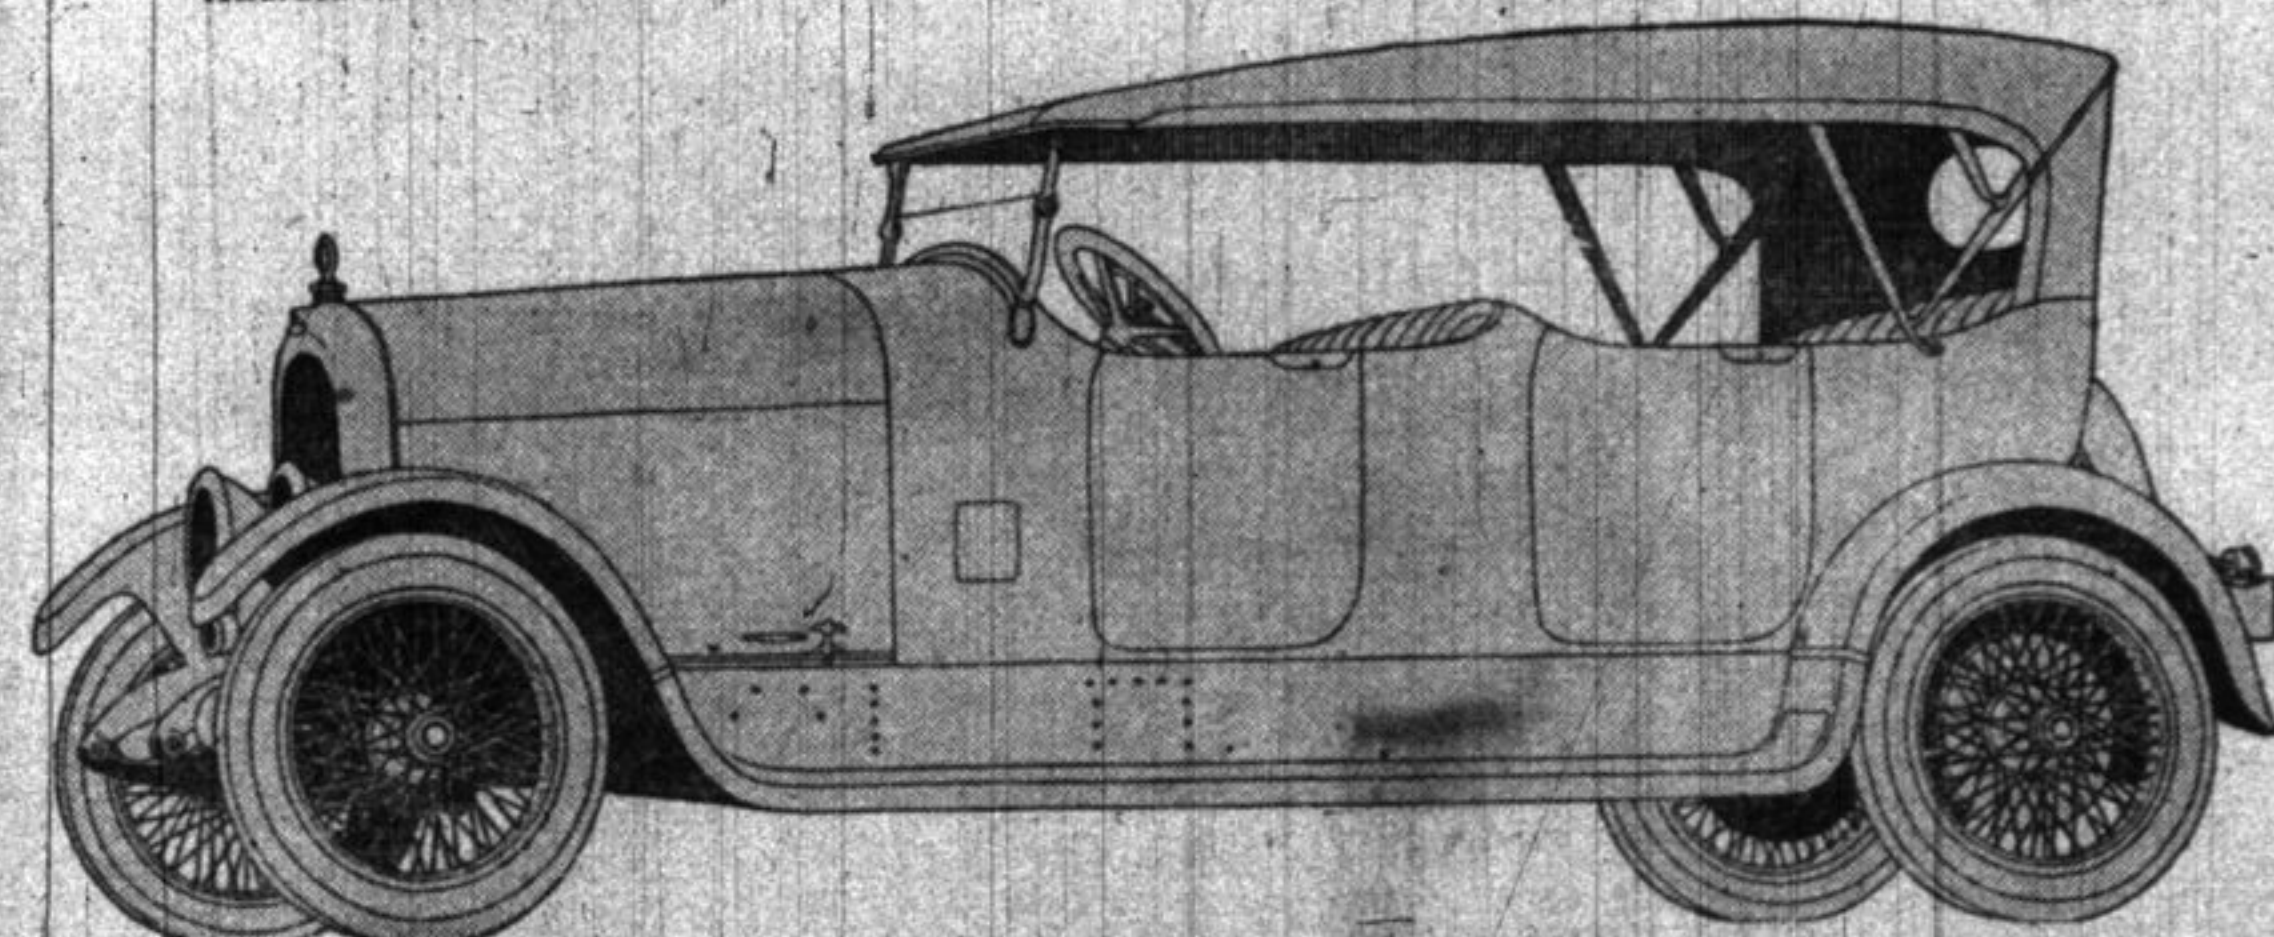

THE MARMON CHICAGO COMPANY

(Incorporated)
CHARLES E. GAMCILL, President

NUMBER 3

TAXES PRESENT VERY CONFUSING PROBLEMS

RAISE REAL ESTATE TAXES

New State Tax Law Has Diminished the Full Value But Raises Rate, Figures Are Given

Many questions have been asked during the past week in regard to the taxes. Under the present law which the Legislature passed on June 30, 1919, the people are hit two ways. There are two elements which decide how much our taxes are going to be, first, the assessment, and second, the rate. Under the old law, that is the law existing before June 30, 1919, property was assessed at its full value, diminished two thirds, and the amount thus obtained was the amount upon which taxes were figured as arrived at. The new law diminishes the full value one half and thus it created the rate. Assume for instance that the house and lot of "A" valued (full value) at \$9000. Under the old law the assessed value would be one-third or \$3000. Under the present law it would be one-half or \$4500, and this would mean a fifty per cent increase in the amount of taxes to be paid.

But this is not the whole story. The Board of Review has raised all real estate 20 per cent so that "A's" house which was valued at \$9000 is now valued at \$11,700, and his assessed value is \$3850. Rate—that is per cent rate of taxation—is a combination of all the taxing bodies in Lake county, plus the state tax added together and scaled under the June law. The very complex system is the method by which the rate is determined. "A" lives in District 107, his rate for this year would be \$7.75 per \$100 and the taxes on his property would be \$454.54.

However, while the assessed valuation is raised, the rate has been lowered, and may be readily be seen in the following figures:

1918—District 107—	rate \$8.25
1918—District 108—	rate \$8.25
1919—District 107	rate \$7.75
1919—District 108—	rate \$7.75

The increased assessment of thirty per cent and the corresponding increased valuation fixed by the Board of Review holds good for Highland Park, Lake Forest and Waukegan.

EASTER MONDAY DANCE AT HIGH SCHOOL GYM

Affair to Be Given by Members Fire Department to Purchase Some New Equipment

The Highland Park Fire department announce a benefit dance at the high school Easter Monday night, April 25. They are planning to make this a very enjoyable affair and it is hoped that they will receive hearty support.

During 1919 the department answered 79 calls and a number of the would have been disastrous fires, had it not been for the prompt arrival of the department. Out of the fires during 1919, the total estimated loss was only \$2,200, which is very creditable showing.

As we all know, the local department is a voluntary organization, the men receiving only \$5.00 a month a \$1.00 for each fire attended. Oftentimes they do more damage to their clothes than they receive for a fire, and very often at a serious loss have to work several hours.

It can readily be seen that the compensation is practically nothing and they are fulfilling a very patriotic duty.

The money derived from the dance goes for necessary equipment of the department.

"A NAUTICAL KNOT" BY HIGH SCHOOL CLUB

The Amateur club of the DeWitt-Shields high school will present a playlet entitled "A Nautical Knot" in the high school gymnasium, Friday evening, March 26. Follow the play dancing will take place. Small admission fee will be charged to benefit the Senior annual which promises to be one of the best ones ever issued by the high school students. All interested high school life are cordially invited to attend.
