THE ART OF PRINTING

The longer one lives with Printers' Ink, the more he feels that printing is a wonderful art.

It is built on the solid foundations of a mechanical craft, with certain processes and information and standards resulting from ages of experience.

And in design and expression, it has all the grace and force of the fine arts.

The printer with the true craftsman's spirit, gives his product superior value to the user. If a "job" has a clean and neat typographical appearance, it makes stationery or announcements look business like and efficient. If also it is set up from handsome and artistic type, it seems to stand for something having distinctive and superior value.

If still more, it is arranged with printed messages makes a clearer impression, and speaks with more convincing power.

The Press has arranged for a series of Feature Articles on the subject of The Printing Art. These will set forth some of the basic principles of the printing craft, as exemplified in this shop, and will suggest why our printing has distinctive value to anyone who has any message to give the public. People who would like to understand more clearly as to what constitutes good printing, will be interested to read these articles.

A Warning to Property Owners

On Sunday afternoon, March 28th, 1920, A TORNADO passed thru the City of Wilmette and other Illinois Cities destroying Homes and Business Property valued at several millions of dollars.

A like disaster may visit Highland Park, Ill., at any time. Be protected and prepared. Your Fire Insurance Policy DOES NOT protect you against loss by TORNADO, WINDSTORM OR CYCLONE. The Insurance rates on this line of Insurance are low, being about one half of the Fire Insurance rate on same buildings.

Building material and labor prices have gone up. Furniture and household supplies cost more. Cost of replacements are from 40 per cent to 100 per cent greater than five years ago. You may have had enough INSURANCE a few years ago. Have you enough now? It is better to decide before a Fire or Cyclone than to regret afterwards. Insurance rates are the same now as before the War.

I represent several of the oldest, strongest and best all American Insurance Companies writing FIRE, TORNADO, WINDSTORM and CYCLONE INSURANCE. Insure NOW with

We Mean It!

For about four months this bank has been urging the farmers hereabouts to read THE COUNTRY GENTLEMAN. We have done it because we believe in THE COUNTRY GENTLEMAN. This Great National Farm Weekly offers actual money-making helps to those farmers who read it regularly and follow its advice. Its subscribers have in the main become the most prosperous farmers in their counties the Nation over. And that is why we should like to see it in every farm home in our county. We mean it when we say: Read

The COUNTRY GENTLEMAN

In a recent investigation among farmers the question was asked: "What helps you most?" One-third answered: "My farm paper." They were able to put a dollars-and-cents value on the advice they read. THE COUNTRY GENTLEMAN is National—broad enough to cover the United States and give a National viewpoint; and at the same time it is local enough to treat of methods and practices section by section. Subscribe for a year! It will cost you \$1.00 for 52 big weekly issues—and many a farmer has profited \$100.00 from hints in a single issue. If you say so we'll charge your account \$1.00 and see that your subscription begins at once. We mean it!
