TO RAISE FUND FOR LIBRARY SERVICE

\$2,000,000 BEING OBTAINED

No Intensive Drive Methods Being Employed. Books to be Available to Large No. of People

Practical ideas for the better management of the home, tending toward improved sanitation, elimination of waste, better environment for children, and general improvement in all household conditions, are quickly available through books devoted to home science, which are to be found in public libraries and their branches. Aid and advice to women who seek such information is provided by skilled librarians and the wider use of such volumes is encouraged.

Thorough acquaintance with the modern science of housekeeping will do much to solve many of the daily problems confronting women in the home and lighten the burdens that often are extremely heavy. Such information is authentic and proves of immense value to the housewife.

In its "Books for Everybody" movement, the American Library Association, in cooperation with public libraries and other agencies, is promoting extension of library service to bring the best books within easy reach of the 60,000,000 persons in the United States who are today without such facilities or have but a limited opportunity for obtaining good reading matter.

To carry out the broad provisions of the enlarged program, which aims at universal self-education through books, a fund of \$2,000,000 is now being obtained. No intensive drive methods are being employed, however, the raising of the fund having been left to the individual efforts of the librarians, library committees and friends of libraries.

MAY PARTY A MARKED SUCCESS

great treat and the dancers thoroughly applauded her effort.

The second part of the contest for the silver loving cup brought out a very large field of contestants; the judges selected three couples but one refused to contest in the finals of the evening and the remaining couples danced the contest off, resulting in Miss Simmers and partner winning; the last dance for the cup occurs next Saturday and on the following Saturday the finals will be danced.

The attendance was over four hundred and the growing number of older people in attendance is a welcome sign to the management, which desires to see Highland Park turn out at these dances en masse; the highest standards in dance hall deportment is the aim of those in charge; the mothers of all young ladies attending are invited to come and every effort is being made to make the dances genuine community assets.

Tickets marked "Season 1920, Community Service, Highland Park," with the name of the holder and endorsee are out and everyone except soldiers and sailors are requested to secure a card of admission; tickets can be obtained by application to any of the hostesses or from any of the board members or from the advisory committee; out-of-town guests must be recommended by some one on either of the above committees.

Growing Deposits the Result of Growing Confidence

Official statement published in this issue shows deposits on May 4th \$1,323,263.76
Last published statement shows deposits on February 28th \$1,085,749.59
Growth of deposits in two months and four days \$ 237,514.17

In a city no larger than Highland Park the business of a bank cannot be built to such proportions unless its record has justified and won the confidence of the public.

Conscious and proud of this confidence we appreciate the fact that our growing deposits are the result of a growing confidence on the part of the good people of this community.

Ancients and Moderns

Smoking as a Feminine Pastime is As Old As The Hills—Cigarette Only is New.

These ladies of the Tennessee mountains apparently do not know that the cigarette is today socially "it" so they are smoking the old fashioned pipe to enliven the social atmosphere, just as they did forty years ago. After a few puffs they will talk about Andrew Jackson and Little Van.

The other ladies are talking about frocks and dances and theatres believing that they are being really modern. If they could only look upstairs they would see that smoking as a feminine pastime is quite ancient.

The whole of the lives of these mountain people can be gauged by this simple-minded social pastime. Their existences run on a worn pattern of forty or more years ago. Being out of touch with the world in their mountain fastnesses, they have not progressed. Their homes are run down and their minds and ambitions narrowed.

There are several hundred thousands of these people in the two and a half million acres of eastern mountain land, and their awakening is one of the difficult social problems in which the Interchurch World Movement, representing the cooperation of America's evangelical Protestant denominations, has taken an interest. It plans to send teachers to establish schools throughout the region. The people will be helped to progressive methods in the business of living and their interest aroused in the outside world.

POSTPONE \$400,000 PAVING PROGRAM

Failure of Contractors to Submit Bids Forces Waukegan To this Course

Present indications are that Waukegan's \$400,000 paving program which it had planned to put thru this summer will have to be postponed indefinitely through a failure to get paving contractors to submit estimates for doing the work. Fluctuating prices of materials, the uncertainty of obtaining sufficient labor and the difficulty of getting shipments of materials is given as the reason that contractors will not even nibble at the most alluring bait. Another reason is that the actual cost of paving streets is so far in excess of the engineer's estimates which were made at a time when prices were much cheaper, that contractors are unwilling to take a chance.

WAR VETERANS PLAN TO BUILD CLUB HOUSE

A movement to have all the Chicago war veterans societies to combine to meet under one roof has been started and plans are being drawn to erect the largest building in Chicago and what will prove to be the largest clubhouse in the world. To facilitate this 40 men have been selected from the different war veteran societies to form a "Veterans Club" which will be incorporated. Then every veteran society in the city will be asked to make their headquarters in this building. Organization meetings in this building will automatically have all their members full active members of the "Veterans Club." The club house will contain offices for the headquarters of the various societies, assembly rooms, club rooms, a theatre, roof garden and a cabaret. There will be 600 sleeping rooms for the members of the club. The club house, which will cost several millions will be financed by a group of Chicagoans who will ask but 4 per cent for their loan. Members can buy stock in the club in denominations from \$50 to \$1,000 and have ten years to pay for stock subscribed. No outside subscriptions will be asked and no member can hold more than \$1,000 worth

of stock. Women's auxiliaries will be classed as members. Efforts will be made to have Chicago the headquarters of every military organization in the country.
