LOST
LOST — Taken from Lake Front park Friday, July 25, girl's blue Ranger bicycle. Liberal reward for information leading to its recovery. No questions asked. Tel. H. P. 1170. 347 Central av. 20 pd

It isn't so hard to think as to get at it.
 Culture cannot be put off and on like clothes.
 If you are bound to be a grouch don't save it all for your family.
 It takes mighty little advertising to build up a reputation for unreliability.
 Keep your door open for Opportunity—why wait for its knock?
 The man that forges to the front is the one who thinks in advance of the other fellow—that does something he does not, or does what he does better.

PRINTERS UNION MAKES EXCELLENT SHOWING
EARN 114 MILLION IN YEAR
Pays \$5,000,000 Benefits in Six Years, Although Membership is Comparatively Small

The International Typographical union, which has never called a strike, and only in one or two instances have locals done so, is one of the strongest organizations in the industrial world, and the annual report received by the Waukegan local, of which five of the employees of the Highland Park Press are members, shows the increase in gross earnings was \$33,543,926 as compared to the year ending May 31, 1914.

The increase in membership was 12,408.

The pension fund now contains just a few dollars less than one million. This is a very large amount considering the membership which naturally is much smaller than many other trades.

The annual gross earnings of the members is astounding, the same for the year being \$114,594,258. The average earnings per member increased \$350.37, the average being \$1,615.25.

The record to which the organization points with pride, however, is the amount of old age pensions in six years, which total a trifle above two million dollars.

The mortuary benefits paid during that time were slightly under the two million dollar mark. The old age pensions, mortuary benefits, combined with maintenance of the Union Printers' home, totalled a trifle less than \$5,000,000.

FOOD POISONING FATAL TO FARM ANIMALS

Preliminary Treatment of Food Infected by Bacterial Growth Suggested

That forage or food poisoning of farm animals has, by extended experiments, been definitely established as a specific fatal disease and that horses, cattle, sheep, swine, poultry, as well as the human family, are susceptible to the disease, are some of the conclusions drawn by Dr. Robt. Graham of the University of Illinois in Circular 38 of the College of Agriculture, recently issued.

The public interest in food poisoning has been stimulated from recent outbreaks of the disease in man, resulting of incompletely sterilized ripe olives. The results of investigations show that animals suffer from a similar disease.

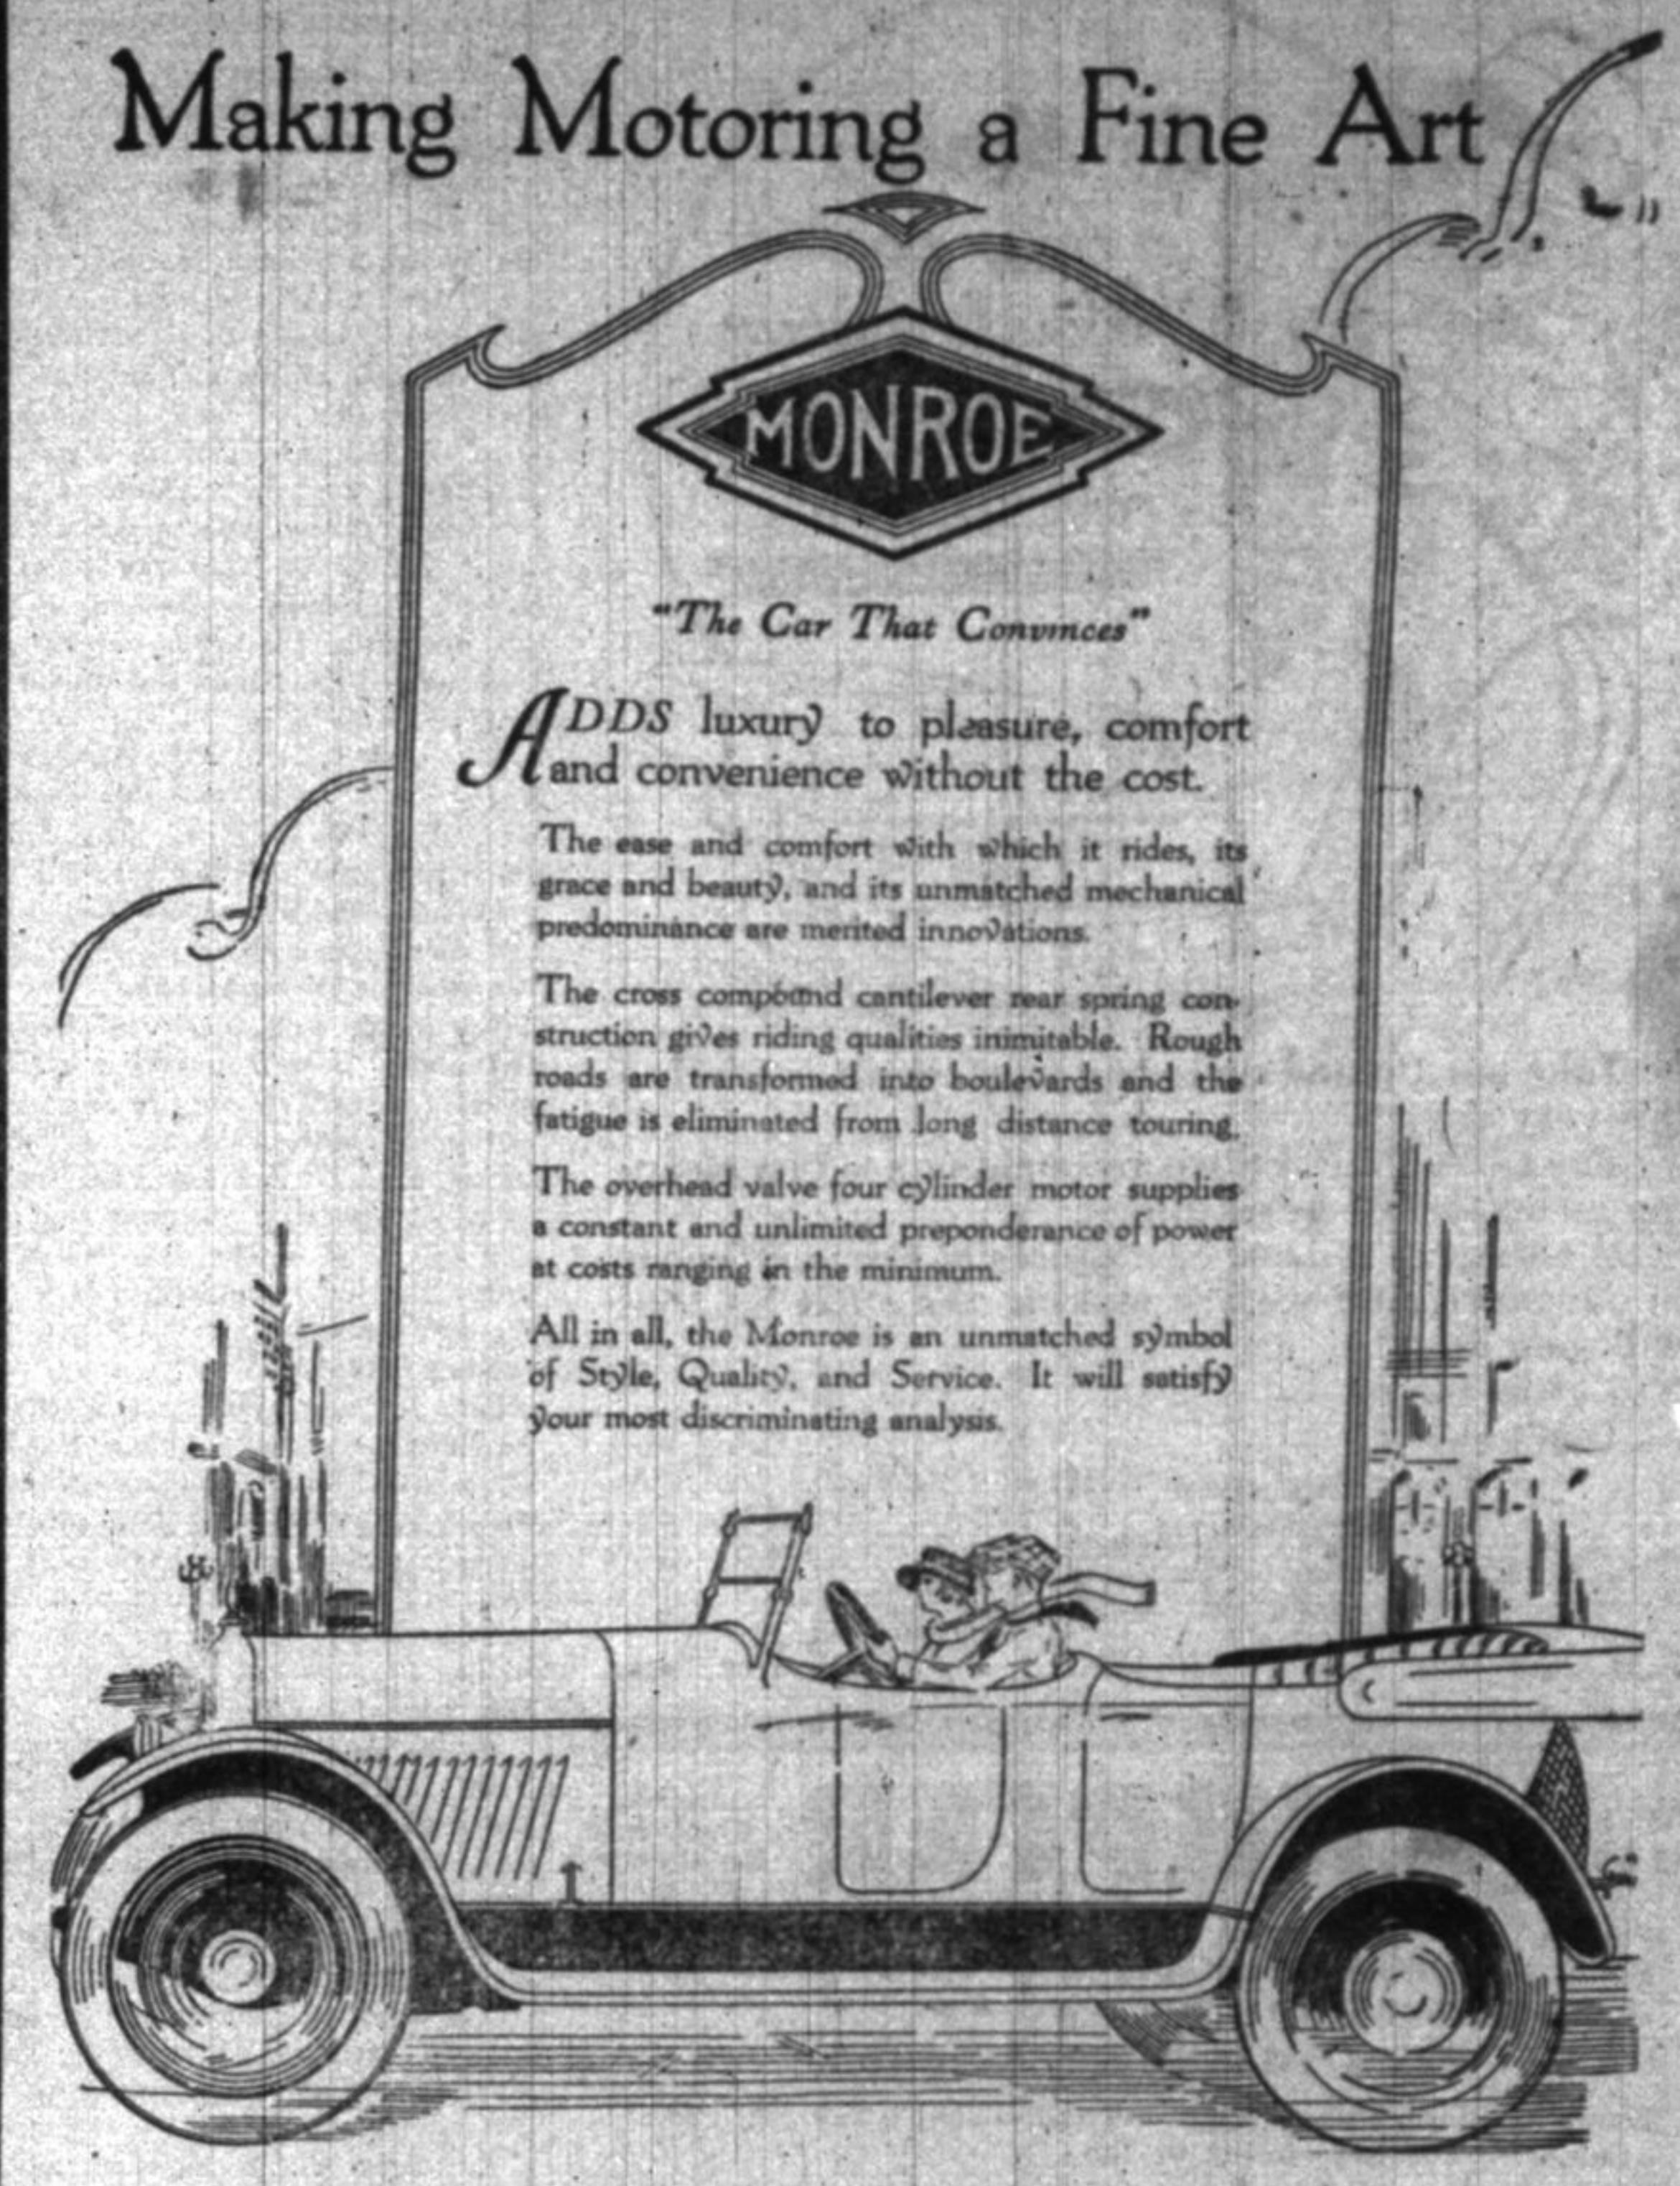

Food poisoning deals principally with the disease commonly referred to as botulism. The poison is developed on animal feed, including ensilage, wheat screenings, ground oats, oat hay, or other feeds, during the time it is stored before being fed. The poison is the result of bacterial growth upon the feed and may take place without any visible change in the feed. Molds so often associated with food poisoning in animals have a very remote connection with the primary cause of the disease, according to the results of the recent experiments.

The results of the work reported in the circular indicate that feed which has produced illness and death in animals may be fed without great danger if certain preliminary treatment is given it. Cooking to the boiling point, exposure to sunlight for two or three days, thorough washing in water, are procedures that are recommended. In many outbreaks it is difficult to detect the feed involved, and of course until this information can be definitely obtained it is always advisable to make a complete change of feed.

A specific antitoxin which will prevent the development of food poisoning has been developed and applied with good results. From preliminary observations made by the University it appears that veterinarians may find botulinus antitoxin a very valuable asset in combating food or forage poisoning in domestic animals. It can be obtained from the University Experiment station, until available from commercial sources, at the cost of production, which at the present time is two cents per cubic centimeter.

The best lies we have ever told are those which most resemble the truth.
 Life is no jokester, but it's more apt to smile back if you take it good naturedly.
 The man who gets down on his knees to the world is in a fine position for someone to knock him flat.
 We just get to thinking that suffering would be a good thing when we meet some suffragettes.

Making Motoring a Fine Art

MONROE

"The Car That Convinces"

ADDS luxury to pleasure, comfort and convenience without the cost.

The ease and comfort with which it rides, its grace and beauty, and its unmatched mechanical predominance are merited innovations.

The cross compound cantilever rear spring construction gives riding qualities inimitable. Rough roads are transformed into boulevards and the fatigue is eliminated from long distance touring.

The overhead valve four cylinder motor supplies a constant and unlimited preponderance of power at costs ranging in the minimum.

All in all, the Monroe is an unmatched symbol of Style, Quality, and Service. It will satisfy your most discriminating analysis.

LIBERTYVILLE ACTS TO STOP SPEEDING

Libertyville has joined the ranks of cities and towns in Lake County which are waging a stern warfare against automobile speedsters. A motorcycle has been purchased by the town board and George Wehrenberg has been hired as motorcycle cop. He has received orders from Marshal Dennis Limberry to put a stop to reckless driving if he has to arrest everyone who passes through the community.

Wehrenberg is obeying orders to the letter. On the first day he brought in ten speeders who were arraigned before Justice Hubbard who assessed a fine of \$5 and costs in each case.

Mr. Wehrenberg is keeping close watch on the many automobile parties passing through Libertyville, and it is the intention of the authorities to stop the reckless speeding which has been practiced by many on the way to the Lake resorts.

With the police of Waukegan, North Chicago, Zion City, Lake Forest, Highland Park and Libertyville waging a warfare on speeders, not to mention the work of the county motorcycle cop who patrols the entire county, the speed violators will soon learn to respect state and city regulations.

TRAINS COLLIDE AT LIBERTYVILLE

Engines Badly Smashed; Local Fails to Switch in Time

Several score of passengers narrowly escaped serious injury Monday afternoon in a collision on the Chicago, Milwaukee & St. Paul railway at Libertyville. Fortunately the worst damage was inflicted on the two locomotives.

The two trains came together at the station as the result of confusion of orders as to the track being clear.

The train from Chicago to Libertyville, a local, was due at 1:05 but was an hour late. It is known as No. 151. Train 142 from Madison to Chicago due at 1:04 came tearing down the tracks and as it rounded the curve at Libertyville, the other train, heading north, was unloading passengers.

The engineer on the Libertyville local saw the impending crash and quick as a flash threw his throttle into reverse and tried to back away. However, he couldn't get away fast enough and the outbound train could not stop quick enough to avoid a crash. That hundreds of passengers on the two trains were not hurt seemed surprising and when the atmosphere cleared and it was found that the damage was restricted to the two engines, everybody thought Providence had intervened.

The accident was due to the fact that Libertyville local, late in arriving, had not taken to the side track as the Madison train crew expected, according to orders they had received.

The people who tell the most frequently how the town should be run are not usually willing to take any of the.

DROPS DEAD AT RAVINIA PARK SUNDAY EVENING

William Beilschmidt of Chicago Symphony Orchestra Dies of Heart Failure

William Beilschmidt of 1818 Melrose avenue, Chicago, a trombone player in the Chicago Symphony orchestra, died of heart failure at Ravinia Park Sunday evening about 8 o'clock, just before the opera, "Faust." He had played in the afternoon concert. His wife, who had come to Ravinia to spend the day, returned to Chicago about six o'clock. He and several of his friends were playing cards at the time he was stricken. There was a slight delay in the evening program.

Organic heart disease was the verdict given at the inquest held Tuesday afternoon in Prior's undertaking parlors, presided over by Coroner J. L. Taylor.

FARMERS PURCHASE CARLOAD OF SUGAR

The Lake County Farm bureau, with headquarters at Libertyville, has ordered the purchase of a carload of sugar for its members which will be ready for distribution within a short time. Only members of the Farm bureau will be able to get this sugar.

The Association has a large membership and every member will be entitled to at least 100 pounds of sugar. The price will be 20 cents a pound.

Owing to the opening of the canning season requirements being much larger, the farmer members decided not to depend upon the uncertain supply available through ordinary channels, especially in view of the fact that it is retailing for 28 and 30 cents per pound, and only small quantities to be had even at that.

News of the plan has started interest in a similar plan for consumers in the various towns of the county. By pooling orders they believe a few carloads of sugar could be purchased and distributed to advantage.

RAVINIA REPAVING CONTRACT IS GIVEN

Racine Firm to Improve Roger Williams and Dean Avenues

The work of resurfacing Roger Williams and Dean Avenues in Ravinia will be begun in the near future. The contract was let last week by the city to the Western Improvement company of Racine, Wis.

The contract calls for a new surface of asphalt, two inches in thickness, to be spread on over the old pavement, which is full of holes and badly in need of repair. Over the asphalt will be spread a top dressing of roof gravel.

The Cedar Avenue improvement in Ravinia has been completed, and the street is now ready for use.

ADDITIONAL DEERFIELD

Miss Imogene Lidgerwood of Los Angeles, Cal., is visiting her cousin, Miss Ruth Lidgerwood.

Misses Martha and Jennie Karch with their nephew, Jerome Seaman, returned to Cross Plains, Wis., Saturday.

The St. Paul's Evangelical church school will give a picnic on the afternoon of July 18, at the place known as Ringdahl's woods. Come and enjoy yourselves. A good time is in store for everybody. We extend an invitation to all our neighboring churches and Sunday schools.

Mr. Phil Kern of Columbia, Penn., and Mr. and Mrs. J. W. Elliott of Oak Park were the guests of Mrs. Elliott's sister, Mrs. Reichelt, Sunday.

Many a good woman acts as a lighthouse to a man and shows him the way round the rocks.

Don't forget what an angry man says to you—it's apt to be the truth.

Many men are like second-hand machines — all right as far as they go.

UNIVERSITY OF ILLINOIS

NUMBER 21 AUG 27 1915

SATURDAY'S CROWD BEST OF SEASON

"BUTTERFLY" IS POPULAR

Same Program to be Given Next Saturday Night; Children's Carnival Aug. 5

The Ravinia Park opera is becoming more popular every week. Last Saturday night at the first performance of "Madame Butterfly," the park was packed with the largest crowd of the season. From every standpoint the production was a great success. Miss Easton made an admirable Cho-Cho-San. Her long intimacy with the role has enabled her to develop it unusually well. Mr. Kingston's work as the inconstant lieutenant overshadowed anything he had done heretofore this season. Miss Alice Gentle sang effectively as the maid, Suzuki. Graham Marr, the chorus, sang with a voice of rich and sympathetic quality. The chorus and minor roles were excellently handled.

On account of the tremendous success of the first presentation of "Madame Butterfly," the management has decided to repeat this opera next Saturday night.

Sunday night "La Boheme" was repeated. Monday night's program consisted of the usual concert by the Chicago Symphony orchestra, and included three soloists. Though the audience was small it showed its appreciation of all the soloists by granting an encore to each. Tuesday night "Lucia di Lammermoor" was repeated with the same cast as in the first performance. Last evening (Wednesday) Carmen was given with Alice Gentle in the title role.

The Week's Program

The program for the following week will be: Tuesday, July 27, afternoon, children's program, evening, "Aida," Friday, July 23, afternoon, concert, evening, "Mignon," Saturday, July 24, afternoon, concert, evening, "Madame Butterfly," Sunday, July 25, afternoon, concert, evening, "La Traviata," Monday, July 26, evening, orchestra program; Tuesday, July 27, evening, "Il Trovatore," Wednesday, July 28, "Thais."

The Thursday afternoon (free) children's program has become one of the big attractions at Ravinia. Many children each week take advantage of this opportunity to learn something about music and grand opera. The program for next week will be divided into two parts. During the first half of the session Mrs. Oberdorfer will explain to the children the different instruments of the orchestra, the various members of the orchestra appearing to illustrate her talk. After this explanation there will be several selections by the orchestra. The musician will not appear.

Thursday, Aug. 5, there will be a big children's carnival and flower pageant. The kiddies will all have costumes, which will be rented to them at a nominal fee, not to exceed fifty cents. Mothers may see the costumes by calling Mrs. Arthur Byfield, chairman, telephone 345.

ASSESSMENT FIGURES PUBLISHED THIS WEEK

In this week's issue of the Press is published the assessment list for Highland Park, Deerfield and West Deerfield townships. The list includes only personal property and such real estate as has changed since the last assessment. The figures for Highland Park were made out some time ago by Assessor James O. Duffy.
