Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

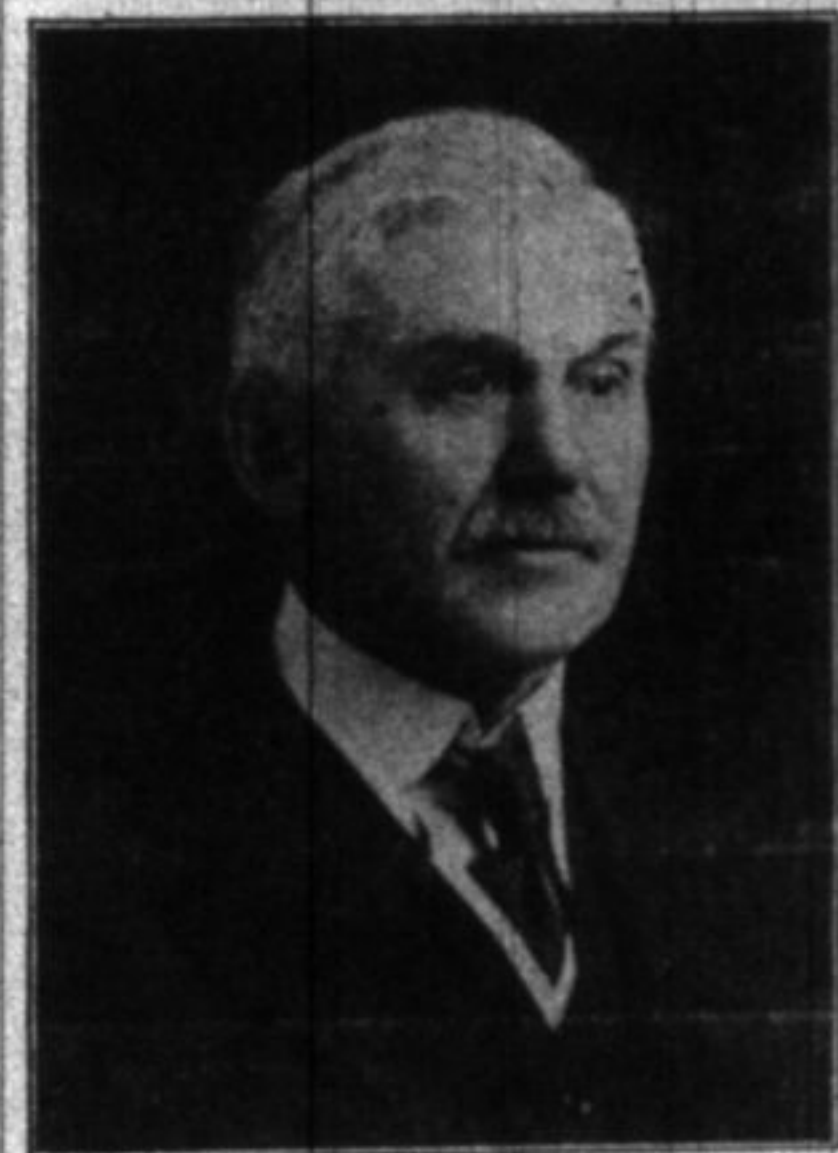

Estimates promptly furnished upon request.

VOTE TO RE-ELECT SENATOR SWIFT

He LEGISLATED FOR THE UNFORTUNATE

He introduced and passed through the Senate, one of his seven bills during the last session, an act to repeal the apprentice law which provides for the binding out of children under 16 years of age to "Masters". Workmen won't stand for "bounden" boys and girls and "Masters" are out of date.

He also introduced, and the bill became a law, FOR THE STATE TO HELP THE PHYSICALLY HANDICAPPED. The boy on the farm who has lost his arms can't hope to farm; the boy or girl mangled in the machinery of a factory, one who loses his sight, the crippled and physically handicapped, can, with help of those who know what is best, learn to do some kind of work well and become contented, useful citizens.

Do you good citizens who work want a senator who has worked all his life, on the job for you in Springfield, thinking for you?
