FEW ATTENDED PICNIC YESTERDAY AFTERNOON

Annual Affair of Business Men Draws Small Crowd; Saturday's Picnic Fizzle

Only about a third of the members attended the annual picnic of the Business Men's association yesterday at Wheeling. Many of those who did arrive late, and stayed for only a short time. Despite the fact that the crowd was very small a very pleasant afternoon was spent. The evening meal was served in the grove along the bank of the river.

The combined picnic of the Young Men's club and the American Legion members at the lake front last Saturday evening was a fizzle. Scarcely anyone attended, and the dance which followed drew only about half a dozen couples.

BRIEF AND BREEZY

Keen desire is felt by the summer boarders in the country to see the silo milked.

After buying an automobile for rest and refreshment, some folks are surprised to learn that there are just 185 places where it must be oiled and greased every two weeks.

The agitation against campaign contributions is so successful, that it is believed candidates will pay by cash instead of checks that can be traced.

The marvellous fertility of Mother Nature is manifested in your garden growing up to luxuriant weeds.

While Americans are highly unpopular in Europe, their cash is cheerfully accepted for hotel board and tips.

A library worker inquires whether political platforms should be catalogued under Summer Fiction, Fairy Tales, or Hot Air apparatus.

You can't make a summer camp any more attractive to a boy by telling him that it has a perfectly safe swimming place.

Put a

NOKOI

Burner in that Coal Furnace of Yours and End Its Dirt Forever

TENDING a coal furnace is the dirtiest, meanest job in the house; you find it out every morning; every night; your wife knows it all day. Now you can end all this dirt and drudgery with Nokoi, it burns oil; fits any modern furnace—steam, hot water or hot air. It's merely necessary to remove the coal grates of your present plant and insert the burner through the ash door. Then you'll have a REAL furnace; one that leaves no dirt; regulates itself; gives you uniform heat you never get with coal.
