LIEUT.-GOV. OGLESBY MAKES VISIT HERE

(Continued from page 1)

the Republican party of Illinois will not have fastened upon it throughout this State a Tammany system of government.

The issue is plain. I have no words against any candidate for any office but I stand with the people of the State who oppose the principles adopted by William Hale Thompson. I am against Tammanyism in Illinois. I am unalterably opposed to the Thompson declaration of principles to which his state candidates have subscribed.

This is the same Thompsonism which Theodore Roosevelt denounced in 1918, which was repudiated by loyal people of the State at the 1918 primaries; which was rejected by the Republican State Convention last May; and which was ignored by the Republican National Convention in June.

Thompsonism is insistent. It asks more power. It desires control of the State government as the city government of Chicago. It must be considered now by the people of the State and rejected or adopted.

My candidacy has been brought about, not so much through personal desire, as the result of this crisis in the party, and a self-sacrificing elimination of many leading Republicans in the State who recognized that if the Thompson plan was to be met and defeated it would necessarily be based upon a single candidacy rather than many. For the act of confidence reposed in me I am exceedingly grateful and yet not unmindful of the great responsibility that attaches to this campaign.

Here and now, in every county in the State, and to as many Republican voters as I can reach between this and Primary day, I shall take the unqualified position of a Republican against Tammany rule in Illinois. I take this position without any reference to the personality of any other candidate. But we are compelled to admit facts, and the facts are, there is a situation emanating from the Thompson machine of Chicago which with unbounded ambition is insidiously trying to force its blighting hand upon the State government of Illinois. I ask you, my Republican friends and citizens of this State, to investigate the baneful influence of this system already fastened upon the city of Chicago. After such investigation I am willing to rest my case that the Republicans of this State will not extend that avaricious power but will, as I believe, stop its influence at the Chicago City Hall.

Let us analyze the situation. Let us know what William H. Thompson and his associates have done to the city of Chicago. They have bankrupted the treasury of the city of Chicago. They are in default to the creditors of the city, working an injustice to those creditors, and a reflection upon the good name of the city. During the current year they have already disbursed next year's revenue and the over-burdened taxpayers of that city are confronted with a continual mounting indebtedness of millions of dollars. The current press carries the story that the banks of Chicago, as a matter of safety, have refused to honor future certificates of indebtedness.

How does this situation, thus briefly told, compare with the business-like accomplishment and reorganization of the State government of Illinois? Every effort and every energy of our State government has been toward the application of economy and efficiency. Under the adoption of the budget system under the present Republican state administration, the cost of our State government has been kept within the appropriations made by the Legislature. In the face of all increased cost of commodities, the State tax rate has been reduced fifteen cents while government costs everywhere else in the United States have mounted with the general increase in prices.

On the first day of July of this year in the State Treasury, there was a net balance of over sixteen million dollars while the deficit in the Treasury of the city of Chicago reached about the same amount. These comparisons are important to the voters of this State. They are sufficient, in my judgment, to cause them to place the stamp of disapproval upon the Thompson organization which, with wanton waste, has piled up deficit upon deficit and a burden which the taxpayers of that city will be many years in effectually discharging.

In my campaign for governor, it is my hope, and most earnest desire to appeal to the sound, sane, and practical man in every walk in business and professional life within our State. I do not expect to make one appeal that will be attractive to the radical mind, or to those whose chief object appears to be to tear down instead of to build up.

Government in Illinois under Republican administration has made a marvelous record in keeping with the

progress, power and distinction of our State. Government, like business, can never remain stationary. It must go forward or backward. It cannot stand still. Proud as we are of the record and accomplishment of the Republican State government in our State, we are conscious that problems still confront our people in legislation and administration that must be met with intelligence, courage and sanity.

Our party must continue to keep close to, and be responsive to the orderly desires of the people. Its actions must continue to be governed by common sense and patriotic performance of duty. It must, in my judgment, continue to devote its best thought, time and energy to concrete illustrations of results accomplished to the satisfaction of the voters of this State.

The pronouncement of vague and empty promises which cannot be fulfilled may be an expedient of the political opportunist, but so far as I am concerned, I submit for your consideration and approval my record as a public official, my platform as announced and the pride and satisfaction that will come to me in giving the best that is in me to the Republican party and the people of the State.

IRATE FARMERS ON TRAIL OF INSPECTOR

WATERED MILK FOUND?

Thirteen Farmers Near Libertyville Stopped from Marketing Milk in Chicago

A veritable indignation meeting of dairymen in the Libertyville territory was held at the office of the Lake County Farm Bureau at Libertyville on Saturday evening, and 150 irate farmers were present. Milk Inspector Z. L. Blaisdell's charge that many of the dairymen had been "watering" milk delivered to Yore Brothers' plant at Libertyville was met with an insistent demand for full and impartial investigation. The dairymen consider Blaisdell's accusations as wholly unfounded and propose to find out just what inspired the milk inspector's action.

On Monday W. I. Woodin of Area, secretary of the Lake County Milk Producers' association; E. A. Wilton, of Lake Villa, representative of the Marketing Company; and John G. Wirtz, Libertyville local adjuster for the Marketing company, accompanied Farm Adviser W. E. Watkins to Chicago and interviewed Dr. Robertson, health commissioner of Chicago, and requested that measures be taken at once to verify or disprove the records secured by the Farm Bureau and those of Inspector Blaisdell. It was the disposition of the Chicago officials to placate the representatives of the dairymen, but these men were not inclined to listen to their blandishments and insisted on justice.

Expert milk testers from the Illinois university are in the field and thorough tests are being made. The ultimate findings will be made public as soon as the records can be made.

During the past week Inspector Blaisdell had issued orders prohibiting thirteen farmers from the vicinity of Grayslake, Area and Libertyville from marketing milk to be shipped to Chicago. The milk has all been brought to Libertyville and delivered to the Yore Bros. bottling plant, and prepared for shipment to the Chicago market.

In all cases the inspector is staid to have found an excess of water, and in several instances the milk did not contain the required per cent of butter fat.

NAVY AIR SCHOOL GRADUATES 1300

Wonderful Record Attained at Great Lakes Naval Training School

If the United States ever gets seriously into the business of making airplanes, there should be no difficulty in getting experts to make the machines.

Quietly, unostentatiously, but with brilliant effectiveness, the aviation mechanic school at Great Lakes, under the leadership of Lieut. Commander E. E. Wilson, has been training men who are to form the backbone of America's airplane industry of the future.

How well the work has progressed may be judged by the fact that in the past nine months 1,300 men have been graduated from the school. In order to graduate it is necessary for a student to pass a course which enables him to make every part of an airplane, from the engine to the device which registers altitude.

Hundreds of thousands of dollars have been spent by the Navy Department to equip the school with forge rooms, tube rooms, electrical equipment departments, woodworking plants, fabric plants and other departments.

Lieut. Commander Wilson is assisted in his work by Lieut. E. W. Shepard, A. R. Blazier and E. F. De Clark. Records show that the equipment cost per course per man is only \$7. Students are not given any instructions in actual flying, but those who graduate go to aviation camps with the rank of petty officers. There, familiar with every detail of the construction of the plane, they begin their study of flying.

In order to avail themselves of the aviation mechanics course it is necessary for men to enlist for a three-year period.

The women are taking a deep interest in political affairs this season, and a lot of them have found out what the wives of the candidates are wearing.

Meanwhile a lot of men who kick about the high cost of the government spend all their spare time reading the sporting news.

It takes a bargain sale of silk shirts to stir the masses to deep enthusiasm in these times.

Some residents of the North Shore who bought automobiles for their health, are now drinking in the road dust, while the rest of us enjoy God's pure air on our front porches.

Latest business reports are that the sellers of goods won't sell 'em as prices are too low, and the buyers of goods won't buy 'em as prices are too high. This is sure a great country.

The "Own your own home" movement would make better progress if so many people did not have to provide garages as homes for their automobiles.

President Taft used to have an extra strong chair to sit in, but Candidate Harding is more in need of braces for his front porch.

Anyway it won't cost Mr. Harding anything to get his lawn mowed this summer.

No enterprising maker of remedies for throat trouble should have difficulty in selling his product while the political campaign is on.

When a beautiful young woman calls a man dear — it usually is.

After selling the house or farm for \$1000 less than he expected, the owner may be able to console himself that he saved \$1 by not advertising it.

SELLS-FLOTO CIRCUS IN WAUKEGAN AUGUST 23

Hold This Date Open and Take the Kiddies Before School Starts

When the Sells-Floto circus comes to Waukegan Monday, August 23, for afternoon and evening performances, great throngs of people from this section will be in attendance, for we are all, more or less—circus hungry.

The circus this season is the second largest in the world, and has the pick of the circus performers on its roster. "The Birth of the Rainbow," opens the great performance, being followed by aerial acts that are thrilling; contortion acts, real features; ring acts that are marvelous; Indian, dog, pony, monkey, riding, animal, clown and scores of other acts. Three rings and two stages are used this season. And a band of 50 musicians adds its bit to the program, making it the greatest performance under canvas that will visit this section this season.

Better mark the date in your calendar, get the kiddies in your neighborhood together and all come and spend the day with Sells-Floto. Be in time for the parade in the morning.

SPECIAL ELECTION

At a special meeting of the board of directors for school district No. 109, in Lake County, Illinois, held on Tuesday, August 10th, 1920, at which all members were present, the following resolution was unanimously adopted:

Whereas the present tax levy for this district is insufficient to cover the increased cost of teaching, and

Whereas, by virtue of the laws of the State, the voters of the district may, by common consent, increase the school tax levy by an amount equal to two thirds of one per cent of the total assessed valuation of the district.

Resolved that a special election be held in the assembly hall of Deerfield Grammar School on Monday evening, August 23rd, for the purpose of voting on the question of allowing said increase, same to be added to the regular school tax levy for the current year. The Polls will open at 7 p. m. daylight saving time, which is one hour in advance of standard time.
