

### WHAT CREDIT MEN THINK OF PAYING BY CHECK

"Every effort should be made to have checks become more completely the Nation's real currency; the circulation of currency for the payment of accounts, when checks would be safer and more adaptable, is unwise and unsafe."

The above is the conclusion reached by the banking and currency executive committee at a recent meeting of the National Association of Credit Men. The best services of this institution are available to the people of this community. We invite either checking or savings accounts for the safeguarding of funds and for their efficient use.

#### CLEAN POLITICS

The greatest danger to the cause of good government and the stability of our republican institutions is the apathy of "good" citizens who do not take the trouble to vote for clean candidates, and who allow the gang to have its own way at elections. The gang is always on the job, it is their business and they never fail to get out the vote, but the highbrows, who complain loudest of rotten politics, seldom organize to put the best men in office and often neglect to vote for decent candidates.

The extension of full suffrage to women ought to help the situation, but it will not unless the good women take an interest in politics and vote themselves and see to it that their men folks vote too, for the right candidates.

The primary election on September 15 is especially important this year to the people of Illinois. Big Bill Thompson and his man, Len Small, are making a determined effort to gain control of the state and to get their fingers deeper into the public purse, and they are making their campaign upon a platform which is an insult to the intelligence of thinking people, but which is calculated to catch the votes of the ignorant and selfish crowd.

Their principal issue is the abolition of the Public Utilities Commission in order that they may prevent any increase of the rates of public service companies and compel them to return to pre-war standards of cost. If it costs the private citizen more to live and to do business today than it did five years ago, and if workmen rightly demand higher wages, why should railroads and electric, gas and telephone companies they render turn based on present costs for the services they render?

If the legislature were to pass a law forbidding grocers and dry goods merchants to charge more for their goods than they did five years ago one of two things would happen, either they would disobey the law or go out of business, and the same principle applies to public service corporations.

Another bait with which Big Bill and his crowd hope to catch votes is to exempt from taxation all incomes under \$5,000. We do not understand how they propose to do it, but the federal income tax is so justly proportioned and graduated that while the heavier burden falls on the rich the people of moderate means pay their share toward the national expenses. No self respecting citizen desires to evade his part of the public burden and to become an object of charity. The proposal is a vicious one and appeals only to those who are unwilling to pay for the protection and benefits which the state provides.

The situation here in Lake County is a serious one. The Waukegan crowd that has so long controlled local politics naturally wants to continue in power. The most important office to be filled is that of State's Attorney for which Col. A. V. Smith is a candidate. Colonel Smith has proved his honesty and ability by his long residence among us and by his fine war record. He is a man of whom we are all proud and he has no connection with the saloon keeping and bootlegging gang that has made Lake County politics a stench in the nostrils of decent people.

It is the plain duty of all right thinking republicans and independent voters to boost his candidacy and to vote for him on September 15. Don't forget the day and the duty.

#### OUR PUBLIC SCHOOLS

All our public schools reopen after the summer vacation on Tuesday, September 7.

We wonder if our Highland Park people realize how fortunate they are in having schools of such excellence for their children? We think they are better known abroad than they are at home. Wherever we go we find that the Deerfield-Shields High School and the Highland Park Grammar Schools are known, and are regarded by educators among the very best in the country. They are assets of the highest order to our community and deserve the loyal support of every citizen.

Have you ever spent a day visiting our schools? If not, why not?

#### LOCAL AND PERSONAL NEWS

TELEPHONE 34

The Telephone Company has rush periods just as have the street cars, the stores, the banks and the stamp window in the post office.

A man will wait in line patiently several minutes to make a deposit in a bank, to buy postage stamps, register a letter, buy a railroad ticket or a seat in the theatre and make no complaint. But if occasionally he has to wait twenty seconds for a telephone operator he feels greatly misused and condemns the service unsparingly.

Let one put a frank question or two to oneself:

"Does any other company or store in town wait on me with such uniform promptness, or cause me so little direct loss of time, as does the Telephone Company?"

"Can I get the service of a street car, a clerk, a salesgirl, a cashier, or of anyone else nearly as quickly, whenever I want it, as I can that of a Telephone Operator?"

"When I push the buzzer on my desk for the stenographer or the messenger, do they always come immediately?"

The vast system which cares for 550,000 telephones is set up to answer calls in a very few seconds. Any variation therefrom is usually because a number of calls have come in simultaneously. In telephone operation, as in everything else, when an overload occurs, patience should be exercised by everyone until the jam has been cleared.
