

Time to Live

Taking time to live takes will power and planning for a busy mother. You want to do so much for your children that you forget your own self too much, which defeats just the purposes you have in mind for them. Increase your joy in living—increase your influence with your children—lengthen your life, by handing us the drudgery of your washing.

The washing will be well done and the flat work ironed for a very reasonable charge. The rest will be returned ready to iron, or for a slight extra charge, we will iron everything.

Mothers' Club

The first meeting this fall for the Mothers' club of the Y. W. C. A. will be held next Tuesday evening, October 5th, at 8 o'clock. This club is not only for mothers, but is open to all women who are interested in every day affairs, no matter whether you are connected with the association or not. We invite and welcome you to our meetings. There is always something worth while to hear, and the social hour which follows is enjoyed by all. It brings the mothers and older women friends in closer touch with the Y. W. C. A. and the activities of the girls.

Mrs. Frances D. Everett is to give a talk on Citizenship at this first meeting. All who have heard Mrs. Everett will be anxious to hear her on this subject that is interesting to women at this particular time. Women should be alive and awake on matters that pertain to the welfare of the public at large. All women's organizations are including information along this line in their programs and the Y. W. C. A. does not want to appear indifferent to this important piece of work.

Aside from Mrs. Everett's part on the program, there will be instrumental music and a vocal quartet, which promises something very good.

Membership Supper

The annual membership supper will be held Friday evening, Oct. 15. Committees will be active during the next two weeks planning this delightful affair.

The program will be provided by each club, and will include stunts, club songs and dances.

A more extensive notice will be given next week when definite plans are made.

Girls' Council

A very enthusiastic meeting of the Girls' Council was held Monday evening.

The Girls' Council is a recent departure of the Y. W. C. A., and consists of a committee from the Board of Directors, the Misses Merryweather, Fritsch and Meierhoff, who in conjunction with the president and two representatives from each club plan and work for the best interests of the association. This will bring a closer relationship between the Board and the general membership, and is bound to work out many good things.

Educational Committee

Mesdames Grubbs, Boyd, Keller and Merryweather, comprising the Educational committee of the Y. W. C. A. Board, met Monday afternoon and planned for the work that will be carried out under this head during the coming year.

In all probability the classes will not begin until after the membership supper Oct. 15, as that will mark the opening of the year's activities.

New Members

New members are cordially invited to call at the headquarters any day and find out just what is being offered and what will interest them most.

Get your membership in before the membership supper as it will be a grand get-together meeting and will be representative of association hospitality.

PLENTY OF MONEY CREDITS IN COUNTRY

The United States Treasury has been having something to say about the extension of credit by the government. Now that the Federal Reserve Banks operate like clock-work, the finances of the country are regulated in Washington, and the old bogie of the private "banking power" is dead. The Treasury statements explain that there is plenty of money for every legitimate purpose in all parts of the country. Much of the popular clamor for more credit comes from speculators and persons desiring to hold their goods for higher prices. Secretary Houston says that the government could hardly aid in withholding commodities from the markets by extension of credit, "without being a party to a conspiracy in restraint of trade and making more secure high price levels." Credit expansion recently has been ample, the Secretary said, to provide for the movement of crops, and the general tendency has been more toward expansion than restriction.

Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

Estimates promptly furnished upon request.

HUNDRED YEN FOR NORTHWESTERN "U"

Alumnus in the Orient Sends Donation to Fund; Graduates in 38 Countries

The worldwide aspect of the campaign of Northwestern University liberal arts alumni in their canvass for \$1,000,000 protective endowment for alma mater is emphasized by the contribution of S. Kokubo, Japan, of 100 yen to the allotment of the class of 1898. Writing recently to Prof. Robert E. Wilson, chairman of that class, Mr. Kokubo, says:

"I hereby agree to give to Northwestern University the sum of one hundred yen in Japanese currency as a part of the protective endowment fund. I sent fifty yen by postal money order this morning and the balance will be sent you by the end of March, 1921."

One hundred yen is the equivalent of \$50.12 in U. S. money. In this connection it is announced that, including all departments of Northwestern, her graduates are scattered in thirty-eight countries and occupy positions of influence in every civilized nation of the globe. Graduates of the dental school and of Liberal Arts are the leading rovers, it is stated. Not long ago some of Northwestern's dental alumni were acting in high capacities at various small courts where the teeth of the king or the tribal chief happened to be causing grievous pain.
