

JAMES M. COX

THE WORKMAN'S COMPENSATION ACT,

the most scientific as well as the most liberal compensation law in the world, was passed under the present Democratic administration.

FRANKLIN D. ROOSEVELT

THE COMPENSATION FOR INJURIES ACT

was extended to post-office and other federal employees under the present Democratic administration.

THE WAR RISK INSURANCE LAW, a liberal and comprehensive, compensation-for-injuries-law, for the benefit of enlisted soldiers and sailors and their dependents, was passed under the present Democratic administration.

THE COMPULSORY WORKMAN'S COMPENSATION LAW of Ohio has served as a model for all states who have incorporated such legislation into State Law and is one of the outstanding achievements of the administration of Governor Cox, the Democratic candidate for President of United States.

These laws have freed disabled soldiers, sailors and workmen from fear of dependence.
