

Is Your Wife Overworking?

The best of husbands are often blind to the fading of their wives. Love sees beauty in a wife long after the neighbors are saying, "How old and haggard Mrs. Brown looks." For every ounce of unnecessary work or work a wife has there is a toll of strength and beauty exacted. The family washing was once a necessity for women. Now it is a waste of money, time and strength. The modern laundry way is cheaper, better and easier. Take away the burden of the family washing from your wife. Get it out of the house and off her mind. For her it is always a burden. For us it is simple.

HIGH SCHOOL NOTES

By the Students

In this column each week will appear the pictures and descriptions of two of the members of the Deerfield-Shields High school football team, until each member of the team is described.

James Bolan

This is Bolan's last year on the Deerfield-Shields High school football squad. For four years he has worked hard to achieve what he now is, a real football man, which means that he is a true sport, a real man, and an honor to his school. Bolan came out for football in the fall of his first year at High school. Since then he has worked faithfully, doing his utmost to give his opponents all the scrap that he can until now he is eyed by all of them as an aggressive man to play against. During Bolan's first two years of playing he did not show up very much, but he had the stuff in him that makes a player, and last year he was picked as an all Cook county tackle. This honor was rightly placed, for no better tackler than Bolan has ever graced the line of any High school team. Bolan is a man who can be depended upon at any time. A man who knows football, and who can play football. Throughout his entire career he had been known as a clean player, a man who follows sport for sport's sake. Because of this he is admired by all of his many friends, and through his clean, sportsmanlike playing, he has won many friends among his opponents. This year is Bolan's last chance to work for his school and he realizes it. On the field this year he had displayed his unusual ability as never before. He is a man full of fight and willing to give his last drop of blood to win. I think the words of Addison best describe Bolan as the man he is:

Unbounded courage and compassion joined,
Tempering each other in the victor's mind,
Alternately proclaim him good and great,
And make the hero and the man complete.

A lot of people who can't stand it to dig in the garden with a spade, will go out on the golf links and dig up large quantities of turf with their driving irons.

Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

undeniable ability, and the fighting spirit that puts a man ahead in this world.

Frank Parcells

To set the cause above renown To love the game above the prize. And so do I describe Frank Parcells, captain of this year's football team at the Deerfield-Shields High school.

For three years Parcells has "stuck out" for football, putting every effort into the game, and his efforts have not gone for naught, for his game of real football has placed him at the head of the squad. Parcells deserves this position not only because of his unusual ability as a football player, but because of his example of real spirit that he sets for his fellow players and admirers.

Parcells has a natural love for football, and with his ambition to become a real football man combined with this, has finally placed him at the top. A scrappy, brainy and cool headed captain. He has an uncanny ability of using the right play at the right time. He knows just what to do and when to do it, and so there is no doubt that Parcells is the right man to lead the team in the game.

For a High school player, Parcells plays a wonderful game of football. He can punt, drop kick, place kick, tackle, guard run, and in metaoin tant of all, he can use his head.

There is no doubt that Parcells will be a difficult man to replace. The school appreciates his ability, in fact, most every one does for last year he was picked as an all Cook county end.
