### Educate Friend Husband!

He wants you to enjoy yourself NOW and not to overwork. But if you keep on doing more and more, he'll begin to feel that it's all right. And the first thing you know you'll be older than he is. It's the uninteresting, unnecessary drudgery that does it. Why not toss away what you can now? Here's a chance to do it without extra expense. Put that family washing out the back door for our representative to collect. Then dismiss it from your mind until a few days later when it will come back snowy-white, carefully washed, flat pieces ironed. If you want us to do the rest of the ironing, it will be done just as beautifully for a small extra charge. We maintain every facility for handling men's suits. If your husband's suits need cleaning, pressing or repairing send them to us.

## Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

Estimates promptly furnished upon request.
