

For Sale—a Day!

And the price is willingness to try a new method. Instead of a day of hard manual work with the family washing or of dreary superintending of a "wash-woman," you can buy yourself freedom for a day by bundling up that wash, handing it to our representative and getting it back on time with all the work done beautifully.

And when you figure up the cost, you'll find it cost you no more than a woman would. You've bought a day for nothing! Start saving time this week!

Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

Estimates promptly furnished upon request.

Ritter Feed Store

offers you a complete line of feeds for every feeding purpose. Come in and get acquainted with our Quality Feeds.

Every Feed

EVERY FEED we offer our trade has been tried and tested for its productive value before it receives our endorsement and guarantee.

PALATABILITY is the big factor in a scratch feed and a variety of choice grains, scientifically balanced affords the bird a palatable ration and consequently greater digestibility—that means economy.

Sincerity Scratch Grain is all grain. It is thoroughly cleaned and scientifically balanced. Not an ounce is wasted; it is entirely free from dust and fine matter.

With poultry, more vigor means more eggs and you cannot get vigor with inferior feeds. Quality in the breed—quality of meat and an abundance of eggs requires an abundance of vigor and if you want "quality"—you must feed "quality" feeds.
