IF THINE ENEMY HUNGER, FEED HIM

We have all been stirred by the plea recently made by Mr. Herbert Hoover and his associates for the three and one half million children in Eastern and Central Europe who are now in dire need and who must die of starvation and disease within the next few months unless we come to their aid.

America was feeding six million of these children winter before last. Normal recuperation since then has cut the numbers nearly in half, but unusual conditions during the past year have made the situation acute and the fact remains that unless America comes promptly to the rescue the majority of these undernourished and diseased little ones must die before another crop is harvested.

This vast army of starving children in Poland, Austria, Hungary and other parts of war-desolated Central and Eastern Europe are a part of the hideous legacy of the war, which, according to the best available statistics, has already resulted in the loss of thirty five million human lives, the actual military losses totalling nearly eleven millions.

We, in this fortunate country, do not realize the seriousness of the situation or what it means for the future of civilization. Our enthusiasm has evaporated and we are in a moral slump and in danger of losing all that fine idealism which in the past has made America the hope of the world's future.

The fact that many of these children belong to the nations with whom we were at war ought to make us the more anxious to help them. We have never fought with the children, who are the innocent victims of this great catastrophe.

Our duty is clear. For the sake of innocent childhood, for the sake of the Europe of tomorrow, for the sake of the Christ Child whose coming we are about to celebrate and the Christian religion itself, to which the eyes of the whole world are turning, we must not let this call go unheeded.

Offerings will be taken next Sunday morning in the churches of Highland Park for the European Relief Council, which comprises the eight great relief agencies which are co-operating in this great work. Every dollar will be accounted for and honestly used and our response ought to be a generous one.

"Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto Me."

OUR PUBLIC LIBRARY

Strangers who come to Highland Park and are familiar with library conditions in other cities are almost invariably enthusiastic in their praise for our Public Library and the service which it renders to our people.

We have an unusually well selected collection of about 13,000 books covering the whole field of human knowledge, to which most of the important new books are added as they are published.

During the month of November, just past, 3,576 persons visited the library and 3,240 books were circulated. Story hours for children are regularly held and every effort is made to arouse their interest in good reading and to minister to the needs of the entire community, so that there is the closest co-operation between the library and the schools, the Community Center and other agencies of public welfare.

We are singularly fortunate in the personnel of the library staff and its administration is intelligent and progressive.

There is but one serious drawback to the usefulness of the library and that is lack of funds, since the appropriation for library support made by the city as provided for by law, is inadequate to the library's growing needs.

The library is a public institution which seeks to serve the entire community and it ought to have the backing and support of every citizen.

There are some borrowers who do not realize the importance of returning books when they are due in order that others may read them, and that the time of the librarians need not be taken in efforts to secure their return, and we make this appeal for the courtesy and co-operation of all who use the library in order that its work may not be hampered by the carelessness and thoughtlessness of a few readers.

ADVICE IN WINTER STORAGE OF CARS

Motorists need not be quick about putting their cars in storage this year; in fact, they will get plenty of use from them if they don't store them away, for there are many indications in nature that the approaching winter will be a short and mild one.

In noting this fact, the United States Tire Company points out that one nice thing about motoring in winter is that wear on tires is less in cold weather than in the hot summer months. Heat is the worst enemy of rubber. If cold weather lasted all the year round tire mileage records would increase amazingly.

If you are going to put your car away in spite of the prospect of considerable opportunity for its use, here are some things to do with regard to the tires if you want to find them in good shape next spring:

- 1. Wash the tires carefully on outside to remove oil and grease.
2. Remove tires from the wheels and wrap them up in paper or cloth.
3. Store in a cool, dry place away from daylight.
4. If tires are left on the car, jack up the cars, deflate the tires and wrap them in covers.
5. Don't let car stand on tires all winter - to do so means a new set of tires in the spring.

COUNTY PAYS \$3,750.00 TO OFFICER'S WIDOW

Mrs. William Hanna Voted Money by County Board of Supervisors For Husband's Death

The supervisors Tuesday, as one of the first acts in the December session, voted to pay to Mrs. William Hanna of North Chicago for the death of her husband while acting as speed officer for Lake county last summer.

The payment is to be made as a result of an agreement being reached between the finance committee and Mrs. Hanna and thus brings settlement without litigation.

Hanna, it is recalled, met a tragic death east of Lake Villa last summer, when, in hastening out of the Lehman place in pursuit of a speeder he crashed into another auto and died shortly afterwards.

It was discovered after the accident that the county carried no insurance which protected it in this respect; therefore, the committee investigated the county's liability under the law and recommended the settlement which was approved by the board.

"ALL BOOZE MUST GO", SAYS STATE'S ATTORNEY SMITH

(Continued from Page One)

Cites Search and Seizure The state's attorney stated that the search and seizure act had been enacted by the state legislature June 1, 1919, and became effective July 1 last year, and has not been revoked or revised.

The search and seizure act defines intoxicating liquor as follows: "Intoxicating liquor or liquors shall include all distilled, spirituous, vinous, fermented or malt liquors which contain more than one-half of one percent by volume of alcohol and all alcoholic liquids, compounds or preparations whether proprietary, patented or not, which are capable of or suitable for being used as a beverage."

Defines Violation Another section of the act defines the persons liable for violations as follows: "Whoever shall within prohibition territory, by himself or another, either as principal clerk or servant in any manner manufacture, keep for sale, order, purchase, receive, possess, transport upon any highway, cause to be transferred on any highway, take an order for, sell, give away, or dispose of, or aid any person in procuring any intoxicating liquor in any quantity whatsoever."

The penalty for each offense upon prosecution is a fine of not less than \$50 nor more than \$500 or imprisonment in the county jail for not less than twenty days and not more than sixty days, or both in the discretion of the court. Should a violator be convicted a second time the act decrees that he shall be liable to a fine of not less than \$200 nor more than \$5,000 and imprisonment in the county jail for not less than ninety days nor more than one year.
