# GARNETT'S

## Bowman Dairy Co.'s Milk

### From the Best Farms

Our milk is produced only by those farms that can pass our own rigid inspection, in addition to those of the City and the State.

We maintain a staff of inspectors, at our own expense, whose duty it is to inspect the production of our milk.

The health of the cows as well as every person handling the milk is constantly under inspection, and if there is any question in this respect, the farm is not allowed to deliver the milk until the condition is remedied.

The inspectors make a thorough study of every condition on the farm. The handling apparatus must be modern and must be kept spotlessly clean. The methods must be of the best. No farm is permitted to sell milk if it cannot bring its methods to comply with the best known standards.

Everything is done that will insure the richness, purity and safety of Bowman's Milk from the start.
