

### —and Father did the Washing Once

This incident was told of a local man, in a local home.

The laundress failed to show up — his wife was indisposed — something simply had to be done about the washing, so of an evening he decided he'd be laundress himself.

For an hour he sloshed and lifted and lugged — and in the morning called us.

We have been calling regularly even since — his hour in the cellar convinced him that washing is indeed no work for a woman.

But we do more than lighten labor — we give saving, sanitary service — cleanse everything sweetly in rainsoft water and suds of pure, mild soap — iron daintily — call promptly and deliver punctually. In a word, we give you modern laundering service.

Try this service and you'll want no more of the old. Phone us today.

Don't forget we do absolutely the best Dry Cleaning, Pressing and Dyeing.

## Landscape Harmony

The evident harmony of arrangement between the house and surrounding landscape is what first impresses one in viewing Italian landscape architecture.

A consideration of the design as a whole, including gardens, terraces, groves, and their necessary surroundings and embellishments, brings out the fact that no one of the component parts was ever considered independently.

If you are contemplating having some landscape work done, it pays to employ one who is an expert in his line. Right now is an opportune time to make preparations for fall planting, tree trimming, and other work around your place. Do not put off making your arrangements, as the fall is a very busy season.

Estimates promptly furnished upon request.

## Conservation and Percolation

WHAT would you think of a manufacturing establishment which threw away the finest part of a raw product? Not so much. That's exactly what is done when coffee is boiled by others than highly accomplished experts.

BUT when you make Coffee by the Percolation process —

WHY, you utilize the proper principle. You extract the essence of the berry. There's a difference. Try Percolated Coffee just once and you'll see.
