## FATHER AND SONS DINNER HUGE SUCCESS

### ENJOYED BY ALL PRESENT

#### Speeches, Basket Ball And Gymnastic Exercises Were Features of the Evening

Two hundred and thirty men and boys sat down at the "Fathers and Sons Dinner" given at the High School lunch room on the evening of Lincoln's birthday. The affair was a most successful one and it ought to be an annual institution. The very first gathering of the sort was held at Deerfield-Shields before the war and the idea was taken up and followed in many other places, even the universities are giving Fathers and Sons dinners, one having been held at the University of Illinois recently.

The purpose of these gatherings is to bring fathers and sons together and to emphasize the importance of closer relations between them. It too often happens that busy fathers know next to nothing about the intimate life of their sons, they are merely on speaking terms, whereas the relationship ought to be the closest and most intimate possible and one of mutual comradeship and affection.

Since the dinner was held on Lincoln's birthday a part of the program was devoted to the Great Emancipator, to whom frequent reference was made, and concerning whom there were two addresses, one by John Winthrop of the class of '21 on "Lincoln the Man" and another by Robert Robinson of the class of '23 on "Lincoln the Boy."

But to go back to the beginning: the dinner was an excellent one and admirably served. It was provided by the Domestic Science department under the direction of Miss Hesler and Miss Spence, and we suspect that Mrs. Schmitt had something to do with it. The details of service and arrangements were worked out by Mr. Percy Egan and the class president, and the Glee club enlivened the evening by a number of songs under the direction of Dr. Newhall.

The first speaker was Mr. Sandvick who struck the key-note of the evening and told the purposes of the gathering. He gave some interesting anecdotes of his own boyhood and of his close relations with his father and ever since. Then he introduced the toast-master, the Hon. Henry A. Rumsey, Mayor of Lake Forest, who in turn introduced the speakers and enlivened the evening with his witty sallies.

The first address was by Graham Keagle of the class of '22 on "The Spirit of Deerfield-Shields," then followed the Lincoln addresses already referred to, after which Mayor Hastings of Highland Park, although his name was not on the program, was called upon for an impromptu speech and responded in his happiest manner, relating incidentally, several little known Lincoln anecdotes.

Following the Mayor, Joseph Proctor, on behalf of the student body, told us "What We Owe to Our Fathers," and the exercises were concluded by Mr. John Gorby of Lake Forest in an inspiring address on "Getting Ready for Our Job."

After the dinner the company adjourned to the gymnasium where an exhibition of the class work in marching and Swedish movements was given by the junior classes and of apparatus work by the advanced classes, all under the direction of Mr. John Rothacher, Athletic Director. The evening ended with a basketball game between a High School team and one from Lake Forest college, in which the school won by a score of 14 to 10.

Altogether the whole evening was most successful and reflected great credit upon all concerned and it was a striking exhibition of the fine spirit of Deerfield-Shields, and of the pride and loyalty with which the men of our district regard it.

## FINANCIAL CAMPAIGN IS NOW IN PROGRESS

### Do You "Belong" to Community Service? Join Now! Help Shape Community Spirit!

This is the day of the Community. Communities had their part in winning the war. The second line trenches of the selective service, of munition making, of food saving, of liberty loan drives, etc., were all in the communities that make America.

To the average man America is not so much a union of forty-eight states—it is the neighborhood or the city or the town in which he lives, works, plays, goes to school, attends church, belongs to lodge or club and where his friends are. Because we love the place where we live, we are loyal and stout-hearted Americans. Citizenship implies a measure of pride, of vision, of contentment, of happiness, and a sense of belonging to the community. When every person "belongs" and has a vital interest in some phase of community life, then we shall all be 100 per cent Americans.

This is the point of view of Community Service of Highland Park.

Do you "belong" to Community Service? If you do, you not only really belong to Highland Park but will help others to "belong."

The financial campaign for the raising of funds to carry on the second year's work of Community Service is now on.

Your financial as well as personal support is urged. Join Community Service and thus help to shape the Community spirit in Highland Park.

## CONSIDER NEW ROAD PLAN FOR NEW TRIER

### Proposed Route to Chicago May Avoid Villages and Provide a Pleasant Scenic Drive

Motorists from this city will be benefited if the plan for a new route which New Trier township highway officials are considering is successful. By constructing a through road in the township outside the villages, New Trier expects to afford motorists a direct route to Chicago, and one which will avoid the present congestion in the various towns and villages.

Highway Commissioner H. H. Sherer, who is also village manager of Glenco, in his annual report, has made the following statement:

"The development of village plans in several of the villages of the township has led the commissioner to make a study of the need for a road outside of the villages, but close enough to them to encourage its use by those wishing to enjoy some of the beauties of the north shore without being subjected to the delays of the traffic in congested streets within the limits of Wilmette, Kenilworth, Winnetka, and Glenco."

Possible Plan Outlined

"Careful consideration is being given the plan for the construction of a road connecting Green Bay road north of Glenco over the Hohlfelder lane (already built) with North avenue, Winnetka, (projected), and as indicated on the Winnetka Plan, connecting with a road following in a general way the east line of Skokie ditch with a connection with Willow street with one branch running south from North street at the G. & N. W. railway, thence south over Happ road, a continuation thereof to Lake avenue, crossing the railroad at this point west on the Harms road past the Forest Preserve property, and south into Niles Center, and thence to Chicago over Lincoln avenue."

This road, the commissioner points out, indicates routes which traffic could take with the benefit of time saved, and would, at the same time, relieve the congestion in the villages. Glimpses of the Skokie golf grounds, the Winnetka municipal links, and glimpses of Indian Hill would be this route.

In the smashup, the roadster, which was driven by Johnson, was knocked into a telephone pole, and the truck was turned over on its side. ## CITY COLLECTION OF GARBAGE IS PLANNED

### COUNCIL FAVORS PROJECT

#### Members of Woman's Club, Ravinia, and Ossoli Clubs Back of New Municipal Scheme

Highland Park will have a new system of garbage collection under municipal supervision if efforts of the Ossoli, Ravinia and Woman's clubs are successful. These organizations have had their proposition approved by the city council, and are now out getting subscribers for the project.

The matter started when members of the three clubs got together, and signed petitions to the city council, asking that the city take over the work of collecting and disposing of garbage in the city. The council agreed, providing that the clubs secure the subscribers, and the following schedule of rates for city garbage service was made out after a careful estimate of the cost of the work:

400 and not less than 250 subscribers \$2.00 mo.  
450 subscribers or more..... 2.50 mo.  
500 subscribers or more..... 3.00 mo.  
550 subscribers or more..... 3.50 mo.  
600 subscribers or more..... 4.00 mo.

Subsequent reduction will be made provided more than 600 are signed up. Only those who sign the contract card will be entitled to the new service, but everyone, of course, is required to make some disposal of garbage. The city plans to do the work at cost, the idea being merely to provide a cheaper and better service. There have been many complaints recently about the service rendered by private collectors.

It is estimated that the work will require two trucks and six men. Highland Park already possesses an incinerator, located at the foot of Central avenue.

After the petitions had been presented to the city council, City Clerk E. A. Warren compiled a report, which contained an outline of the methods employed in the collection of garbage in other north shore towns, and also an estimation of the cost of the work in this city.
