## Investment Opportunities

Many a so-called "investment opportunity" is nothing but an opportunity for the unscrupulous to add to their ill-gotten gains.

Prospective investors are therefore cordially invited to use this institution's facilities to find out whether the investment opportunities they have in mind are really opportunities to increase their profits.

We are glad to analyze any proposed investment for you, or to have you look over our attractive list of approved securities.

### JUDGE LANDIS AND THE PUBLIC

Judge Kenesaw Mountain Landis has been much in the limelight lately. He has been featured in the headlines and his photographs have been reproduced in the public prints many times. This is nothing new for Judge Landis and it does not seem to disturb him as it might some more shrinking and sensitive soul. Indeed, he seems to flourish on newspaper advertising and to enjoy the pitiless glare of publicity.

There are those who accuse Judge Landis of sensationalism, and the question arises is sensationalism a quality compatible with the dignity and position of a judge on the federal bench?

Judge Landis is an honest and a fearless man and a terror to evil doers; so much is beyond dispute. He may or may not be a great jurist, but he does as a rule, administer justice with an unsparring hand, justice in full measure and sometimes running over.

The question arises, and has arisen in Congress, whether or not a federal judge may properly combine with his judicial functions a lucrative position as arbiter of the ethics of professional baseball. The salary of a federal judge is miserably inadequate, so much is plain, but is he justified in accepting an additional salary from another source? We believe that the best public sentiment registers as its answer an emphatic No, and that Congress will so rule. Should such a ruling bring about the resignation of Judge Landis from the federal bench it would be a public loss but not an irreparable one.

With regard to Judge Landis' decision in the case of the young man who robbed the bank in which he was employed there is this to be said: Two wrongs do not make one right. If the young man was underpaid his employers were to blame, but the fact that he was underpaid does not make him less a thief, and the question is not was he underpaid but did he steal the money?

We do not believe that honesty and integrity is in any essential way related to the amount of a man's salary. A thief on a salary of one hundred dollars a month would be a thief on a salary of a thousand dollars a month were the temptation present to him.

### LENT

The word itself means springtime and nothing more, and it comes from the Old English "Lencan" which is practically the same as our word "lengthen" and means "springtime" because in springtime the days grow longer. As the fast falls in the early part of the year, Ash Wednesday falling between February 4 and March 10, as Easter is early or late, so it became identified with the season until gradually the word Lent which originally meant Spring was used only to designate the fast before Easter.

The Lenten season is observed by all members of the Roman Catholic, the Eastern and Anglican Churches, probably ninety per cent or more of all Christian people in the world, and has been so observed for some eighteen hundred years, or since the second or third century. This means that the observance satisfies a popular need and is justified by its results, else the institution would not have survived.

Furthermore, the season is becoming more and more observed by many Protestant churches, which is further evidence of the same sort.

Lent is a time for taking account of spiritual values, for centering attention upon the great fundamental verities of life, and this beyond doubt is wholesome.

Then again, life in these days is so complex and involved that from time to time we must withdraw ourselves from its hurry and confusion if we would preserve our mental and spiritual health and poise, and this is what Lent enables us to do. The greatest need of today is the need of simplification, which means the laying aside for the time at least, of our unnecessary burdens, and Lent when it is honestly kept, furnishes us with this opportunity.

Much more might be said, but this is enough.
