Mothers' Club

The next meeting of the Mothers' club will be held Tuesday evening, March 29, at 8. Miss Marion Moseley will tell of her experience with the Dr. Grenfell mission in Labrador last summer when she went to this far northern station and worked among the under nourished children of these people.

While there she took many pictures and these have been made into lantern slides which will be used to illustrate her talk next Tuesday evening.

The people on the coast of Labrador are producing the fish and fur we are enjoying and it is up to the people of this country to see that they are cared for. It was this humanitarian view point that led Miss Moseley to embark in this wonderful work which makes the most interesting story to relate. Her present field is in the Chicago schools where many undernourished children are found.

The music for this meeting will be very attractive. We are fortunate in having Mrs. Leonore Beck Shuster who will sing two groups of songs which will be a treat for those fortunate enough to hear her.

Miss Elizabeth Morrison will add to this interesting program with a couple of instrumental solos.

Bazaar

The long looked for bazaar will be put on by the senior clubs next Thursday afternoon and evening, March 31. It will open at 3 and continue until 10.

There will be candy and all kinds of home made cakes, pies and bread for sale.

There will also be various articles such as aprons, baskets, towels and sundry articles of all kinds in the attractive booths.

The Mothers' club, in addition to their miscellaneous booth, will sell coffee and doughnuts all afternoon and evening.

Girl Reserves

The Girl Reserves will sell picturesque bird houses made in the far north, of birch bark in the good old fashioned way, so that they will withstand the weather for years.

These birdhouses are on exhibition at Harder's hardware store. A look at this attractive display from March 28 to April 2 will convince anyone that our feathered friends will be drawn to the pretty little houses, and that the appearance of the lawns will be enhanced by the birch bark novelties.

The receipts from the sale of these bird houses will be used to defray the expenses of camping trips to Druce lake this summer.

Wrong Numbers

If, for any reason, you are connected with a telephone other than the one you called, move the receiver hook slowly up and down four or five times, or until the operator answers. (The signal will not operate if hook is moved rapidly.)

Tell her that you have been given a wrong number, and repeat the number you called for.

This routine is necessary to avoid the possibility of having the nickel "collected" by the operator (if using a coin box telephone), or having the call charged (if using a measured service telephone). There is, of course, no charge where a wrong number is given, but sometimes the operator does not know about it and should be told.
