

Spring, 1921

Wake up, for it's planting time, the glorious Spring is here once more, and everybody healthy in body and mind should have a good dose of "PLANTING FEVER" and let Bahr fill the prescription.

Get busy with the lawn; it needs "Darling's Fertilizer" (blood and bone), which contains more actual available Plant Food than any stable manure you can buy. It's clean, has no weed seeds, and we deliver it in the original bags at \$3.25 per 100 pounds.

Grass seed, the best money can buy, and especially adapted for our heavy soil, at 35c per pound and the sooner you sow it the better.

How about a few flowering shrubs? — if you don't know just where to put them, why not call up 85 — Jim or the old man will be glad to come over and offer suggestions on any problem confronting you about your outside work. It's free and may save you time and labor.

For the past 26 years we have been planning Home Ground Planting in Highland Park, and still serve some of the patrons we had in 1894, and we like to serve you and help you make your home grounds more attractive.

Bahr's
Flower Shop

When in doubt, there is only one thing to do—
Call up 85, and your troubles are over

Announcement

I wish to announce to the people of Highland Park that I have purchased the barber shop at 37 S. St. Johns Avenue and will conduct the same in conjunction with my present shop until May first, when I will combine the two shops and make my permanent location at

37 South St. Johns Avenue
WM. DENZEL

ELM PLACE SCHOOL

Editor-in-chief, Raymond Botker
Assistant Editors, 8B Class

The 6B's have announced the April bird arrivals. They are: Myrtle Warblers, Barn Swallows, Purple Martins, Wood Thrushes, Brown Thrashers, Catbirds, Water Thrushes, Gold Finches, Kingbirds, House Wrens, Baltimore Orioles, Chimney Swifts.

Saturday I went to the country with father and on the way back I saw a little animal, yellowish brown with black stripes. It ran very fast, but I caught sight of him and made out his colors. Father told me it was a gopher.

Mary Louise Guyot,
5A Grade.

The Meadowlark

He comes here about as early as the robin. He is a beautiful song bird. They build their nests in bushes and high grass. It is made of grass lined with horse hair. A little roof is over it so the people will not see it. It is generally hidden by the grass they build it in. The mother bird lays from three to five eggs. These are white with brown spots on them. The young birds look ugly when they have not their feathers. In about a week they have feathers. I have seen seventy meadowlarks.

In general assembly last Monday morning Mr. Smith said that radishes, lettuce, peas, beans, Swiss chard, and potatoes could be safely planted now.

The 6A and B grades sang three Robin Hood songs on Monday morning in general assembly. They sang very well.

The 4B's wish to announce that they have planted peas, beans, and corn. They are studying germination.

The 1B's are beginning their spring work. They go on observation walks almost daily.

The 1B grades' ring dove has laid two eggs, one on April Fool's day. The lettuce which was given by the pupils is being fed to the other three doves.

Monday morning a boy found a mallard duck and brought it to school. The mallard's wings are clipped so he won't fly away. We hope he will accept us as his master.

The 2A grade is making Robinson Crusoe's home in their sand table. They have planted barley also.

Sherman Vail, a kindergartener, has returned from Florida. There are 63 in his class. They have planted nasturtium seeds.

Gerard Norenberg, a member of our class, has just returned from California.

Next Thursday Mr. McClintock, the noted ornithologist is coming here to lecture and show moving pictures of birds taken by himself. Watch for further notice.

AT YOUR SERVICE

We guard the health of our patrons by preparing their food under sanitary conditions; appease their appetites by supplying from the best food products nature affords.

SHEAFOR'S
RESTAURANT
HOME COOKING
MOSES BLDG.
HIGHLAND PARK

Monday evening, April 4, some of the teachers and twenty-nine pupils went to the First Methodist Church of Evanston to hear the lecture on Labrador by Doctor Wilfred Grenfell. Along with the lecture he showed slides and moving pictures. He told about the crude ways in which the people of Labrador live. He also told of the work he has done and about the twelve thousand patients he treated last year.

The purpose of the lecture was to secure money to carry on the work he has begun.

The Hull House
The Hull House is a place where people of different nationalities come to communicate with each other.

This house was established by Jane Addams in 1889, and is in the center of the Ghetto district. People may come here at night to learn something useful or to have pleasure. They also have a library, pool room, bowling alley, boxing room, dance hall, theater, kindergarten, gymnasium, dining room, living room, manual training and a sewing room.

They have dramatic classes. They also have a few artists that do their painting and scenery work.

In every corner or room of the building Jane Addams has placed some very fine pictures. In the theater she placed two quotations, one from the Bible, and the other from Lincoln's inaugural address.

They also have dancing classes. Delver Dever, 5A

Montessori Kindergarten

One of the most interesting things I saw at the Hull House was the kindergarten of the Montessori School.

As we stepped into the kindergarten room we saw the children taking their exercises to music. First they went down slowly on their knees; then they were supposed to fall to sleep. After that the children stretched and arose. They danced with balloons. Some were bare-footed.

They were of different nationalities. They were from about 3 to 8 years of age. The children took turns in exercising. They slept in the same room that they exercised in. Each had a little folding couch. After exercising they ate their lunch. They put on a cook's cap and apron. Each set his own table. Each had a glass of milk and a bowl of soup. After they ate they took their afternoon nap. They went home at nights with their parents. They came back the next day.

John Gerken, 8A

The Jewish Market

The Jewish Market is on Maxwell street, just off Halsted street. The street is crowded with people. Some buying goods from the dealers and others just wandering around. The dealers have shoes, stockings, sweaters, suits, and dresses. Other dealers are selling meat, fish and other foods. Some of the dealers would stop people and ask them if they wanted to buy three dollar ties for a quarter. The shoes that they had to sell had big hob nailed soles. Some people bargained with the Jews for lower prices. From the Jewish Market we went to the street car. From the street car we went to the train and started on our homeward journey.

Alfred Marks, 8A

CHRISTIAN SCIENCE

Subject for next Sunday's Lesson Sermon, "Are Sin, Disease and Death Real?"

Services are held in this church every Sunday morning at 10:45. Sunday School meets immediately after the morning service, and is open to pupils up to the age of 20 years. The Wednesday evening meeting, which includes testimonies of Christian Science healing, is at 8 o'clock.

You are cordially invited to make use of the reading room at 387 Central avenue, which is open every week day from nine o'clock in the morning until six o'clock in the evening and Sunday afternoons from two to six o'clock.

FACE POWDER

Jontee

Soft, Smooth,
Clinging

SIFTED through silk, to an almost incredible fineness and delicacy. That's the secret of the unusual clinging power of Face Powder Jontee. Its minute particles hold to the skin tenaciously—and invisibly. Pure—contains no chemical substances. And alluringly scented with the famous Odor Jontee—the blended odors of 25 fragrant flowers.

Ask for Face Powder Jontee today.
