Presbyterian Church

Everyone should hear the sermon next Sunday morning upon the subject "Is there a God and how can we prove it?" This is the first of a series of Sunday morning sermons upon the great facts of scripture and their relation to life. Then Sunday evening ought to be held open by all to hear the last of the musicals of the season to be given by the choir. Plan to be present.

We welcome back to our Sabbath school and young people's work, Miss Irene Rockenbach, who has been studying the past year in Boston University, also Miss Dorothy Reichelt, who graduated this spring from the State Normal at DeKalb and Miss Frances Woodman who has been attending a girl's seminary.

Next Sunday evening at the Christian Endeavor meeting, Miss Reichelt and Miss Woodman will bring the young people a message concerning their school life the past year.

The young woman's class gave their departing teacher, Mrs. Gaddis a beautiful farewell party at the Manse last Wednesday evening. Japanese lanterns were beautifully arranged and for two hours the young people and older people enjoyed themselves with games. It ended by "Miss" Edwith Scully and Mr. "Andy" Savage seeking to get married, but it ended in failure owing to the youth of the pair. The class presented Mrs. Gaddis with a lovely remembrance. Mr. William Wafier was unanimously chosen to succeed Mrs. Gaddis.

The Scouts met last Tuesday evening in the town hall and the last week in August was set as the date for the summer camp. Two new members were received as tender-foot Scouts, Richard Kress and LeRoy Scully. Prof. Thomas and Mr. Wm. Seiler were invited to accompany the Scouts which invitation they accepted.

Miss Dorothy Ledgerwood's class of girls and the young Ladies class continue to lead in the auto race, the young men being third.

Friendship and love being two of the cardinal virtues of Christianity we seek to justify our church life by these two facts.

LET US GRIND YOUR VALVES

Leaky Valves is the most common cause of loss of power—but the easiest to remedy. Such a condition indicates no fault of design. It will occur in any car where the valves are neglected.

Carbon deposit is the thing that makes the trouble. This is due to the poor fuel we are now getting, and to inferior grades of lubricating oils.

If you want satisfactory service you MUST have your valves ground frequently. It is not expensive and will always repay you many times its cost in increased power.

We are very careful valve grinders. We do this work in an exact manner and make every valve "seat" perfectly, so that no combustion leak is possible.

Come in and see us—we'd like to talk this over with you.
