At the monthly business meeting and social of the C. E. society, last week at the home of Mr. Beckman, Miss Loy presented the society with a dozen fine bibles which was greatly appreciated and will meet the long felt need for this in our S. S. and C. E. services in the future.

There is a God

Rev. Martin L. Thomas, Pastor, Deerfield Presbyterian Church

From natural science we cannot prove the existence of a God, neither can we disprove the fact. Natural sciences neither affirm nor deny.

Fortunately, we are not limited in our investigations to natural sciences. George John Romanes, the friend and successor of Charles Darwin lost his faith in God, in Christ and in the Church in his search for God thru scientific materialism, but found Him when he sought God thru the Conscience and the Will. Until a year ago, we thought science to be unchangeable and unvariable, but Prof. Einstein has upset all our laws by what he is pleased to call the law of Relativity. We may find God thru natural science even yet.

The Bible assumes that God is. It is silent as to what God is. The Book of the Beginnings simply says "In the Beginning, God," but that is sufficient. To one who has had an experience with God, needs no further proof of His existence. Not alone does the Bible affirm that God is and that He is a reward of those who diligently seek Him, but all nature speaks in no uncertain terms.

Voltaire prayed in an Alpine thunder storm and Charles Darwin said: "In my most extreme fluctuations, I have never been an atheist, in denying the existence of a God."

If there be no God, who unrolled the blue scroll and painted the gleamings of immortality upon its frontispiece? Who warmed the Winds, the Air and the rolling Seas, whose hand directs the movement of the myriad worlds in their orbs, who unchains the lightnings and the peal of the Thunders. All nature declares there is a God from the smallest rivulet meandering toward the ocean, to Niagara's torrent roaring like the sound of cannon. If God does not exist who directs the natural instincts of the insect, animal and fowl kingdom. The wild goose has no compass, yet it finds its way over the trackless coasts and desert land.

We must say it with Bryant: "There is a Power, whose care, guides thy way across the pathless coast, the desert and illimitable air, Lone wandering but not lost."

COMMUNITY SERVICE

Music, dancing, games and refreshments featured the party given by the Daughters of the American Revolution for Miss Gertrude Chandler's classes in Americanization at the Community Center last Tuesday evening.

An informal musical program by Mrs. A. F. Byfield, Mrs. Agnini, and Mr. and Mrs. A. L. Her-ring, and games under the leadership of Mrs. Sewall Truax sped the hours until all too soon the time for leaving came. Members of the D. A. R. are extended the thanks of Miss Chandler and Community Service for the splendid evening. These little affairs will be a monthly event of the summer.

A recital of pupils of the Columbia School of Music will be presented at the Center Friday evening, June 17, at 8:00 under the direction of Miss Helen Taylor and Miss Mary Allen.

Another "stunt night" will be held Friday evening, June 24. These "stunt nights" are informal gatherings where anyone may drop in at the Center and entertainment and stunts are given by the talent present. There is no formality and no set program, but a "homey" good time for all.

The meeting of the members of Community Service held Tuesday night was adjourned until Monday evening, June 27. Paste this date in your hat.

A large and enthusiastic meeting of the American Legion was a feature of Monday evening at the Center.

A rehearsal of the Boys' Drum Corps is called for Monday evening next at the Center at 7:30. The following are requested to be present: Aiden Green, Emmet Krueger, Henry Foley, Paul Chapman, Crawford Merritt, Richard Booth and all other boys who are interested in joining this organization.

"Community Service is a get-together movement of the people, for the people, and by the people."

Nothing new about this shimmy dance. Merely the young crowd trying to imitate the boneless man our grandfathers used to see at the circus.

The suspicion exists that the girls who win the beauty prizes feel that it is not necessary for them to know how to make muffins.

None of the kids has objected to the daylight saving movement on the ground that it makes meals come earlier.

Leaky Valves is the most common cause of loss of power—but the easiest to remedy. Such a condition indicates no fault of design. It will occur in any car where the valves are neglected.

Carbon deposit is the thing that makes the trouble. This is due to the poor fuel we are now getting, and to inferior grades of lubricating oils.

If you want satisfactory service you MUST have your valves ground frequently. It is not expensive and will always repay you many times its cost in increased power.

We are very careful valve grinders. We do this work in an exact manner and make every valve "seat" perfectly, so that no combustion leak is possible.

Come in and see us—we'd like to talk this over with you.

ANYONE can run an Evinrude. Just clamp this handy motor to a small boat and away you go at a speed of 7 or 8 miles an hour, without the hard work of rowing.

Ideal for fishing, hunting or camping trip. Or for picnics and week-end outings.

Magneto, built-in fly-wheel type, and Automatic Reverse are special features of the Evinrude.

Sold by and on display at Harder Hardware Company

YOUNG MEN'S CLUB NOTES

The effectiveness of the hurlers is shown by the fact that not a single batter was issued a free pass, and two bases was the longest hit secured.

In the seventh Fielder Baldwin gave the fans a real thrill with a Tris Speaker shoestring that was labeled "home run."

An audacious Glencoitte had the nerve to attempt to steal home, but "Cricket" had him effectively blocked in true Schalk style.

Umpire Simpson was in his usual good form and pushed the game thru in 1:50 which is fast time for amateur games.

Attendance 500.
Next Sunday the team goes to Highland to battle for a commanding place in the race. No doubt a large delegation of fans will be on hand to see the game.

Formerly they used to complain because people had wanderlust. Nowadays the trouble seems to be speed-erlust.

Perhaps one reason why the summer girl has to be kept full of ice cream, is that unless she is assisted to keep cool her complexion may begin to melt.

It is not true that good scholars are unpopular, as they have many friends for about a week while the other students are getting primed for the exams.
