

PERFECT PERFORMANCE means that you must have a real PUNCH behind your motor. This PUNCH is POWER. And power is the very first essential in ANY automobile.

Your motor CAN'T DELIVER the punch unless all of its many parts are working in perfect harmony.

The improper co-ordination of one small part will destroy the performance of the entire motor.

EVERYTHING must be RIGHT.

Right there is where the great value of FREQUENT INSPECTION comes in.

Form the good habit of consulting us OFTEN. It will pay in BETTER PERFORMANCE, and in actual money saved.

WE ARE AT YOUR SERVICE — ALWAYS.

The Importance of Land Surveying

The survey is an important part of every land transaction. Without a correct survey a buyer is at a disadvantage. Lack of knowledge, as to the property purchased often causes expense far in excess of the original cost of a survey.

Many times a building is constructed on the wrong lot, or perhaps it encroaches on the adjoining lot. This causes trouble which ends only after great expense to the party building. A great many times a building is erected at great cost only to find that the lot is too low for proper drainage, and subject to standing water.

These and many other features are easily avoided by first having a survey.

Our expert advice has saved much money for the real estate purchasers of the past. This same advice and our services are yours for the asking. All work done by Illinois Registered Land Surveyors. Consult us now.

Some of these winners who complain about the loss of a few dollars worth of business ought to take a walk through a school for crippled children.

This committee to cut down government expenses is going to have a sweet job keeping any friends.

How did you feel when you discovered your first gray hair? The coal dealers are already reminding us of next winter.

They say the Kaiser is still sawing wood. Maybe he figures there will be a need of extra fuel when he passes to his reward.
