That five generations of a Waukegan family are living was learned last week when a photographer was called upon to photograph this remarkable group. The members are: Mrs. Ellen Bell, aged 74, of 609

Sixty years of married happiness were celebrated at Grays Lake, Ill., on Aug. 6, when the children, grandchildren, and great-grandchildren of Mr. and Mrs. Amos Bare joined with them in a family reunion at the home of the "ride's" daughter, Mrs. H. R.

Mr. and Mrs. Bare, respectively 80 and 76 years of age, were residents of Chicago's west side for more than fifty years, and they moved to Grayslake last fall. Mr. Bare spent nearly all his life in railroad work and for more than twenty years he was con-ductor of a passenger train running into Chicago from the west.

Haynes 75 \$2485

Several months in advance of the usual time of presentation of such a car comes this new 1922 Haynes 75, priced fully a thousand dollars below what you would ordin-

A newly developed big, powerful Haynes-built engine, perfected after many months of careful scientific research, equipped with the Haynes fuelizing system, assures power, flexibility and acceleration even greater than ever before enjoyed with the always popular Haynes power plant. Larger valves, larger intake and exhaust, thermostatic engine heat control and other decidedly advanced features emphasize the distinct advantage of the Haynes 75 motor alone.

The new 1922 Haynes 75 has a more rugged chassis and in lines and finish, as well as fittings, is completely a 1922 idea. The seven-passenger touring car offers the extreme of luxury and utility in such a production, and the price — \$2485, f. o. b. factory — is in keeping with the Haynes policy of extending to the purchaser every benefit of the organization's manufacturing and distributing method

The Haynes 75 is also available in the four-passenger Tourister at \$2485, the two-passenger Special Speedster at \$2685, the five-passenger Brougham at \$3185, the seven-passenger Sedan and Suburban at \$3485 — each price remarkably low. All the new Haynes 75 models have a 132-inch wheel base. Cord tires are standard equipment.

rice stone Again Reduces Price Extra Size 30x3½ \$1665 Now \$ 1395

Firestone first made the low price of \$13.95 on the Standard Non-Skid, May 2. Unusual purchasing power through big volume of business, and the great efficiency of its \$7,000,000 Plant No. 2, manufacturing exclusively 30x31/2 size, made this possible. Now, the production of the Extra-Size 30x31/2 tire has been transferred

to Plant No. 2. This permits the price reduction on this tire from \$16.65 to \$13.95. No such value has ever before been offered tire users. If your dealer hasn't the Extra-Size in stock ask for our Standard Non-Skid type at the same price. You will still be getting an unusual tire value.
