

The Bank of Personal Service

### They Choose a Banker

The United States has taken unto itself a national budget, thereby placing the stamp of official approval on budgets as a means of cutting down expenditures and eliminating waste.

The national budget is expected to save money for the Government and—by lightening taxation—for every household in America.

And for Director of the Budget they chose a banker—as one who knows all about the systematic management of financial affairs. A PERSONAL budget is a money saver—choose a banker to show you how to put system into your finances.

Choose one of our experienced officers, who are always glad to help you in every possible way.

#### THINK ABOUT IT THIS WINTER

The hot summer days are over, and the bathing beach question that perplexed the citizens of Highland Park for many weeks has been put to rest for the winter. But it has not been solved, and the first warm day next summer it will bob up again stronger than ever. This city is bound to grow, as all north shore cities will grow; and each year it will be increasingly more difficult to keep outsiders away from the local beach. The plan evolved this summer has only temporarily solved the question.

The greatest problem which confronts the city is where to draw the line of distinction. By the new rule only residents of Highland Park are allowed to use the beach.

In a letter to The Press this week a woman who lives only a short distance outside the corporate limits of this city, and who was formerly a resident of Highland Park, complains that members of her family were denied permits to the beach. According to the beach ruling they lived outside the city and could not be given permits. Yet these people are just as much a part of the city as any who reside in it.

Others who reside near Highland Park or who have lived here at some time in the past resent being denied the privilege of using the bathing beach. And still the line of distinction must be drawn somewhere if the city expects to keep the crowds of outsiders from Chicago and other cities.

The problem is a difficult one, and it has only been solved for the present. During the winter months there will be plenty of time for reflection on the subject. Think about it.

#### NEED SUBURBAN DIRECTORY

The Chicago telephone directories recently distributed in this city do not include the names of subscribers in the suburban cities. Thus, local subscribers are obliged to call the "information" operator whenever they wish to reach someone in any north shore or other suburban city. For instance, to call a "party" in Winnetka the person making the call must first ask for the "information" operator to learn the number of the telephone he wants to reach. After he has secured the necessary information, he must again get the local or long distance operator to put through the call. Instead of having a directory in which he can find the information he seeks in a few seconds, the telephone user must waste several minutes talking to different operators. Business men, whose time is worth money, are especially exasperated when they are obliged to wait many minutes to reach nearby cities.

Subscribers have asked for suburban directories at the local office of the telephone company and have been refused. The old directories which were taken in by the company, included the names of subscribers in the suburban cities. The new ones contain only Chicago names.

Local subscribers should be given copies of the suburban directory which has been published.

#### ARBUCKLE'S POPULARITY GONE

The scandal in which Roscoe ("Fatty") Arbuckle is implicated in San Francisco has sounded the death knell for the famous Arbuckle comedies, and will no doubt have a lasting effect on the entire motion picture world.

According to press reports hundreds of theatres all over the country are cancelling Arbuckle pictures. The American theatre-going public was shocked to hear of the goings-on among the California movie folk. Whether or not the charges against Arbuckle are true, his popularity is gone. Millions who flocked to see his homely smiles and humorous antics reproduced on the screen no longer believe him to be merely a good-humored wholesome funny "fat man."

Arbuckle's disgrace may well serve as a warning to other movie stars. There are more like him—men and women whose faces have made them suddenly rich. Money and popularity has turned their heads. In their attempts to live up to their pocket-books they indulge in disgraceful orgies.

The motion picture industry has had a mushroom growth, and the Arbuckle scandal may give it an eye of darker hue than that given organized baseball in 1919 by the White Sox players who "sold" their team.
